Selectmen of Reading, Mass.

July 29, 1947

Report of the Town Clerk

TOWN WARRANT

(Seal)

Commonwealth of Massachusetts

Middlesex, ss.

March 3, 1947

To either of the Constables of the Town of Reading, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the Town of Reading, qualified to vote in elections, to meet in Odd Fellows Building, Woburn Street, in said Reading: as the polling place designated for the four precincts in said Town, on **Monday, the Third Day of March A. D. 1947** at six forty-five o'clock in the forenoon to act on the following articles, viz:

Article 1. To elect by ballot the following Town Officers: A moderator for one year; Town Clerk for one year; one member of the Board of Selectmen for three years; one member of the Board of Public Welfare for three years; one member of the Board of Assessors for three years; one member of the Board of Assessors for one year; Treasurer for one year; one member of the Board of Public Works for three years; two Constables for one year; one member of the Municipal Light Board for three years; one member of the Board of Health for three years; two members of the School Committee for three years; two members of the Board of Library Trustees for three years; two members of the Planning Board of three years; two members of the Board of Cemetery Trustees for three years; one member of the Board of Cemetery Trustees for two years; Tree Warden for three years; also in accordance with the provisions of Chapter 7 of the Acts of 1943 in each of the four precincts the number of town meeting members as hereinafter specified: Precinct I, fifteen members for three years; Precinct II, fifteen members for three years; one member for two years; one member for one year; Precinct III, fifteen members for three years; Precinct IV, fifteen members for three years and one member for two years.

For these purposes the polls will be opened at each of the four precincts at 6:45 A. M. and will close at 8 o'clock P. M.

And to meet in Security Hall, Woburn Street, in said Reading on **Monday, the Seventeenth Day of March A. D. 1947** at seven forty-five o'clock in the evening at which time and place the following articles are to be acted upon and determined exclusively by the Town Meeting Members in accordance with the provisions of Chapter 7 of the Acts of 1943.

Article 2. To hear and act on the reports of the Board of Select-

men, Town Accountant, Treasurer, Collector of Taxes, Board of Assessors, Board of Public Works, Town Clerk, Tree Warden, Board of Health, Board of Public Welfare, School Committee, Public Library Trustees, Municipal Light Board, Finance Committee, Contributory Retirement Board, Cemetery Trustees, Planning Board, and any other Boards or Special Committees.

Article 3. To choose all other necessary town officers and special committees and determine what instructions shall be given town officers and special committees.

Article 4. To determine how much money the Town will raise and appropriate for General Government, Protection of Persons and Property, Health and Sanitation, Board of Public Works, including Highways, Sidewalks, Drainage, Common Parks and Supervised Play, Water Department and Sewer Department, Public Dumps, Charities and Aid, Veteran's Benefits, Public Schools, Public Library, Cemeteries, Memorial Day Observance, Municipal Light Department, Street Lighting, Maturing Debt, Interest, Insurance, Contributory Retirement System, Reserve Fund, Publication of Street List for 1947, further development of the Town Forest and General Accounts.

Article 5. To see if the Town will vote to authorize the Town Treasurer with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1948 and to issue a note or notes therefor payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

Town Treasurer

Article 6. To see what sum the Town will raise and appropriate for the purpose of foreclosing in the Land Court pursuant to provisions of Section 65 of Chapter 60 of the General Laws the right of redemption to any and all real estate taken by the Town for non-payment of taxes or what it will do in relation thereto.

Town Treasurer

Article 7. To see if the Town will vote to raise and appropriate or transfer from available funds, a sum of money for Chapter 90 Highway Maintenance and Construction to be used in connection with monies received from the State and County, or what it will do in relation thereto.

Town Treasurer

Article 8. To see if the Town will raise and appropriate the sum of eight hundred dollars (\$800.00) for the care of graves of any persons who have served in the Army, Navy or Marine Corps of the United States, in time of war or insurrection, and who have been honorably discharged from such service, as provided by Section 22, Chapter 115, General Laws, or what it will do in relation thereto.

Board of Selectmen

Article 9. To see what sum the Town will raise and appropriate to pay into the Contributory Retirement System for Municipal Employees, excluding school teachers, for the benefit of municipal employees on military leave of absence during the year 1946 as provided for and under the authority of Chapter 419 of the Acts of 1943, or what it will do in relation thereto.

Contributory Retirement Board

Article 10. To see if the Town will vote to accept the provisions of Section 85E of Chapter 32 of the General Laws being a law relating to the retirement of permanent members of the police and fire departments of the Town, or what it will do in relation thereto.

Hugh L. Eames and others

Article 11. To see if the Town will vote to amend Article III of the By-laws of the Town by adding after Section 2 the following Sections:

Section 3. The Collector of Taxes shall collect under the title of Town Collector, all accounts due the Town which are committed to him.

Section 4. Every department of the Town shall deliver to the Town Accountant at least once in every month a separate statement of each account due the Town arising through any transaction with such department. Upon receipt of such statements of accounts the Town Accountant shall commit such accounts to the Town Collector for collection. This section shall not apply to taxes and special assessments, licenses and permits issued or granted by the various departments of Town nor to costs and fees charged by said departments, nor to interest on investments of sinking or trust funds, nor to accounts due the Municipal Light Department.

Section 5. Any account committed by the Town Accountant which the Town Collector is unable to collect by ordinary efforts may be referred by the Town Collector to the Town Accountant or Town Counsel for instruction as to procedure. So far as permitted by law any account or portion thereof may be abated by the department in which such account originated. The Town Accountant shall be notified in writing of the abatement of any such committed account or portion thereof.

Section 6. The Town Collector shall, once in each week or oftener, pay over to the Treasurer all money received by him during the preceding week or lesser period on every such account, including any sums received as interest on moneys received by him on such accounts and deposited in any bank. He shall give bond to the town for the faithful performance of his duties in a form approved by the commissioner of corporations and taxation and in such sum, not less than the amount that may be established by said commissioner, as shall be fixed by the selectmen.

Board of Selectmen

Article 12. To see if the town will vote to direct the Board of Selectmen to petition the Director of Accounts of the Department of Corporations and Taxation for the installation of an accounting system, in accordance with the provisions of Chapter 44 of the General Laws, or what it will do in relation thereto.

Board of Selectmen

Article 13. To see what sum the Town will vote to appropriate from the Cemetery Reserve for the permanent development of Laurel Hill and Forest Glen Cemeteries, or what it will do in relation thereto.

Board of Cemetery Trustees

Article 14. To see what sum the Town will raise and appropriate for the purchase of a motor truck for the use of the Cemetery Department, or what it will do in relation thereto.

Board of Cemetery Trustees

Article 15. To see what sum the Town will vote to appropriate from available funds for the purpose of maintaining, repairing, purchasing and operating road machinery and equipment for the use of and under the direction of the Board of Public Works, or what it will do in relation thereto.

Board of Public Works

Article 16. To see what sum the Town will raise and appropriate by transfer or otherwise, for the purpose of improving and constructing a portion of Lowell Street from Winthrop Avenue toward Reading Square, under Section 34, Chapter 90 of the General Laws, together with such sums as may be provided by the State and County, or what it will do in relation thereto.

Board of Public Works

Article 17. To see if the Town will vote to accept the report of the Board of Public Works upon the laying out as a public way of a private way known as Curtis Street under provisions of law authorizing the assessment of betterment, such highway being laid out in accordance with plan duly approved by the Board of Survey and filed in the office of the Town Clerk in accordance with statutory requirements and to see if the Town will accept the public way laid out by the Board of Public Works as Curtis Street.

Board of Public Works.

Article 18. To see if the town will vote to accept the report of the Board of Public Works upon the laying out as a public way of a private way known as George Street, under the provisions of law authorizing the assessment of betterments such highway being laid out in accordance with plan duly approved by the Board of Survey and filed in the office of the Town Clerk in accordance with statutory requirements and to see if the Town will accept the public way laid out by the Board of Public Works as George Street.

Board of Public Works

Article 19. To see what sum the Town will raise and appropriate for the construction of such streets as may be determined by the Board of Public Works, or what it will do in relation thereto.

Board of Public Works

Article 20. To see what sum the Town will raise by borrowing or otherwise and appropriate for the extension and laying out of the common sewers as the Board of Public Works may adjudge is necessary in the Town, or what it will do in relation thereto.

Board of Public Works

Article 21. To see what sum the Town will raise and appropriate for the purpose of conducting and promoting recreation, play, sport, physical education and other social, educational, and recreational activities upon such land and buildings as defined in Section 14 of Chapter 45 of the General Laws, or what it will do in relation thereto.

Recreation Committee

Article 22. To see if the Town will vote to acquire by purchase, eminent domain or otherwise, certain tract or tracts of land with the buildings thereon, in or adjoining Birch Meadow, so-called, and to dedicate other parcels of land now owned by the Town and situated in or near Birch Meadow, as the School Committee may deem advisable, for the construction of a Senior High School and to see what sum the Town will raise and appropriate by borrowing or otherwise, for such purchase or taking, or what it will do in relation thereto.

School Committee

Article 23. To see if the Town will vote to acquire by purchase, eminent domain or otherwise, certain parcels of land in Birch Meadow so-called, being lots 45, a portion of 61 and 61-A, 62, 63, 65, 99 and 99-A, as shown on Town of Reading Assessors' plat 35, for the construction of an elementary school building, and to see what sum the Town will raise and appropriate by borrowing or otherwise, for such purchase or taking, or what it will do in relation thereto.

School Committee

Article 24. To see what sum the Town will raise and appropriate for the transportation of school children for the year, 1947, or what it will do in relation thereto.

School Committee

Article 25. To see what sum the Town will raise and appropriate to pay into the teachers' retirement system for the benefit of teachers on military leave of absence during the year 1946, as provided for under authority of Chapter 419 of the Acts of 1943, or what it will do in relation thereto.

School Committee

Article 26. To see if the Town of Reading will raise and appropriate in addition to other school appropriations for the year 1947 moneys sufficient to pay to the teachers serving in the public schools of Reading, salaries as provided in the schedule submitted to the School Committee in Reading on December 23, 1946, or what it will do in relation thereto.

Clifford A. Baker and others

Article 27. To see what action the Town will take regarding the installation of additional street lights on the public streets during the year 1947, or what it will do in relation thereto.

Municipal Light Board

Article 28. To see what sum the Town will raise by borrowing or otherwise, and appropriate for the construction of an addition and extension to the Public Library building so as provide for a stack room therein or what it will do in relation thereto.

Board of Public Library Trustees

Article 29. To see if the Town will vote to raise and appropriate the sum of One Hundred dollars (\$100.00) and the Selectmen appoint a Director, the Director to cooperate with the Middlesex County Trustees for the County Aid to Agriculture and work of the Middlesex County Extension Service and the 4-H Clubs, under the provisions of Section 40 to 45, Chapter 128, General Laws of Massachusetts, or what it will do in relation thereto.

Lois M. Connor and others

Article 30. To see what sum the Town will raise and appropriate for the purpose of providing by lease or otherwise suitable headquarters for Reading Post 62 American Legion, or what it will do in relation thereto.

C. Wilfred Kelley and others

Article 31. To see what sum the Town will raise and appropriate for the purpose of providing by lease or otherwise, suitable headquarters for Reading Post No. 685, Veterans of Foreign Wars, or what it will do in relation thereto.

Ernest C. Metcalf and others

Article 32. To see if the Town will raise and appropriate the sum of four hundred dollars (\$400.00) for Child Welfare Work, to be expended under the direction of the Reading Visiting Nurse Association and the Board of Health, or what it will do in relation thereto.

Frances K. Wright and others

And you are directed to serve this warrant by posting an attested copy thereof in at least three public places in each of the four precincts of the Town not less than seven days prior to March 3, 1947, the date set for the meeting in said warrant and to cause this warrant to be published in the Reading Chronicle one day at least prior to said date.

Hereof fail not and make due return of this warrant with your doings thereon, to the Town Clerk, at or before the time appointed for said meeting.

Given under our hands this seventeenth day of February, A. D. 1947.

KENNETH C. LATHAM

HERBERT K. MILLER

CHARLES E. WILKINSON

Selectmen of Reading

A true copy. Attest:

Officer's Return

Middlesex, ss.

Reading, Mass., Feb. 24, 1947

By virtue of this warrant, I this day, notified and warned the inhabitants of the Town of Reading, qualified to vote in elections and town affairs to meet in Security Hall, Woburn Street in said Reading, as the designated place for the four precincts of the Town, at the time specified in the warrant, by posting attested copies in the following public places within the Town of Reading:

Precinct 1. Austin's Lunch Room, 17 Harnden St.; Danforth's Drug Store, 1 Harnden St.; Central Fire Station.

Precinct 2. Masonic Temple Building; Lyceum Hall Building; M. F. Charles & Sons Store, 610 Main St.; Boston & Maine Railroad Depot; I. O. O. F. Building.

Precinct 3. Waterhouse Neighborhood Store, 36 Mineral St.; Benny's Neighborhood Store, 168 Lowell St.; Fire Station No. 2.

Precinct 4. Municipal Building; Zitzow's Neighborhood Store, 287 Lowell St.; McLaughlin's Neighborhood Store, 1051 Main St.

The date of posting being more than seven days prior to March 3, 1947, the date set for the meeting in this warrant.

I also caused an attested copy of this warrant to be published in the Reading Chronicle in the issue of February 28, 1947, the same being more than one day prior to the date of said meeting.

LEON G. BENT

Constable of Reading

ANNUAL TOWN ELECTION

March 3, 1947

Pursuant to the warrant and the Constable's Return thereof a Town Election was held at the time and place specified in the warrant and was called to order by the Moderator, Samuel H. Davis.

The clerk partially read the warrant, when on motion of Arthur L. Harris it was voted to dispense with the further reading of the warrant except the Constable's return, which was duly read by the clerk.

The keys to the ballot boxes were turned over to the Constable in charge, the ballot boxes were examined and found to be empty and registered 000.

The polls were then declared open at 6:45 A. M. and were closed at 8:00 P. M. with the following result.

ANNUAL TOWN MEETING

Security Hall

March 17, 1947

The meeting was called to order by the Moderator, Charles P. Howard at 7:50 P. M.

The fact that this meeting was an adjourned meeting of the March 3, 1947 meeting no notice was required by Town Clerk.

The new Town Meeting Members were requested to stand and sworn to office by the Town Moderator.

The Town Clerk partially read the warrant when upon motion of Kenneth Latham it was voted to dispense with further reading, except the Constable's return, which was then read by the Town Clerk.

Article 2. On motion of Philip R. White it was voted to accept and place on file The Capital Expenditures Planning Committee Outlay Program for the years 1947 to 1952.

Report of Classification And Salary Committee was read by William J. Tonks as follows:

To: Board of Selectmen and the Town Meeting Members:

Authorized under Article XIII of a Special Town Meeting held on October 28, 1946 on motion that there be and hereby is established a committee of five (5) members for the purpose of making a comprehensive study of Job Classification And Salaries with a view of establishing a uniform schedule in the Town, and such committee to consist of four (4) members chosen one by and from each of the voting Precincts in the Town, and the fifth to be chosen at large by the four Precinct members, such Committee to report at the Annual Town Meeting to be held in March 1947. Pursuant to the action under Article XIII, the following Town meeting members were elected by their respective Precincts:

Precinct One	Harold L. Jones
Precinct Two	William J. Tonks
Precinct Three	Irving Alger
Precinct Four	Otis B. Ruggles

On January 13th, the same four duly elected committee members met at the residence of Otis B. Ruggles and elected Leon G. Bent as the fifth member-at-large, and at a meeting held on January 20th, the Committee organized with William J. Tonks as Chairman, and Harold L. Jones as Secretary. Subsequent to organization meeting, the committee contacted all Town Departments and secured information regarding salaries and wages paid; hours of work; rates and frequency of overtime, etc., as paid by the Town. This committee is now engaged in correlating and analyzing information secured. In view of the relatively short time which said committee had available between

organization and the Town Meeting to be held March 17, 1947, no attempt is made to report anything other than progress on this problem. It was found by the committee, since it would be necessary to again contact heads of all Town Departments for additional information and hold further discussions to come to an agreement on the decisions and interpretations by this committee on existing Department classifications, that time would not permit any definite conclusions. During January and February all Town Boards were more or less engaged with preparation and consideration of their budgets by the Finance Committee, and it was felt that we should defer further conferences with heads of Town Boards until later.

We estimate that this committee will need the better part of 1947 to submit a definite report of Job Classifications, Salary Schedules, and Rules and Regulations to govern operation of same. This necessitates work with various Town Departments, as well as research on classification programs of other Massachusetts Towns comparable with Reading. We, therefore, respectfully submit our report requesting either an extension of time to present a complete report, or at the pleasure of the Town—our discharge.

Respectfully submitted,

WILLIAM J. TONKS
OTIS B. RUGGLES
LEON G. BENT
HAROLD L. JONES
IRVING ALGER

On motion made by Gardner Long, it was voted that this committee continue to study Job Classifications, Salary Schedules and Rules and Regulations and to make further report at the Town Meeting in March 1948.

HIGH SCHOOL SITE COMMITTEE REPORT

(Made at Annual Town Meeting, Reading, Mass., March 1947)

By G. Warren Cochrane, Jr.

Committee's Approach to Problem

Our Committee was appointed to "make a comprehensive study of the suitable sites" and bring you all the pertinent facts, not to select a site. We have worked diligently toward that end and sincerely hope that the information we will present to you now will enable you to proceed with the purchase of the needed land, confidently and without further delay.

One of our early steps was to send a letter to all Town Meeting

Members and an open letter to the general public inviting suggestions. (Exhibit I) Replies received were studied carefully and were very helpful in aiding the Committee to formulate its ideas. Also, early in our work we decided to make our study as careful and as factual as possible, to eliminate guess-work and to bring in a harmonious report.

Sites Studied

After a general examination of the Town's area, five sites were elected for detailed study. Before listing these sites, we would like to mention two other sites which were given preliminary consideration. The first of these is Memorial Park, which lies just east of Main Street between Charles and Salem Streets. This site was left to the Town for park purposes and was accepted at a Town Meeting on that basis. In the judgment of our Town Counsel, this site is not available for any other purpose. The second site given preliminary consideration is the area in back of the houses on the east side of Main Street and to the northwest of Charles Street. After study this site was eliminated from further consideration for several reasons. It would mean that the majority of children would have to cross Main Street going to and from school, for one thing. For another, much of the land is boggy the year around, in fact, a brook which comes down out of the plot and crosses under Charles Street is used for flooding Memorial Park in the winter. Another difficulty is that there is quite a sharp drop in the lot near Charles Street which would require about 12 feet of fill. Also, the land is all privately owned. To sum up, the site has several basic faults and little to recommend it over other available sites.

The five sites which did seem to warrant detailed study are, alphabetically:

Birch Meadow

Junior High School

Senior High School

Sunnyside Avenue and Washington Street Playground Combined

Sweetser Field

Our first step was to complete a list of factors common to all these sites on which they could be compared in terms of dollars and cents, exact distances and acreage—as precisely as possible, in other words. After considerable reading, discussion and consultation with a representative of our State Department of Education and with our own school officials we developed twenty-four such factors. Before describing them, let us explain how we arrived at a minimum acreage which we believe desirable in a site for a new high school.

Minimum Acreage Recommendation

Again, our conclusion was reached only after considerable discussion, reading and consultation with experts, and this conclusion is that a minimum of 20 acres is desirable. Our school officials estimate that by the mid-1950's we will have a high school population of 1,000, and that it will continue to grow beyond that for some time. For a school of that size, the lowest recommendation we found was a little over 17 acres, and from there recommendations ranged as high as 100 acres where school grounds and park facilities for general community use could be combined.

The accompanying chart (Exhibit 2) is reproduced from the Connecticut Department of Education Building Code which permits lots for schools of one thousand population as small as 10 and a fraction acres presumably in congested locations, but recommends 17 and a fraction acres as a satisfactory minimum.

The second chart (Exhibit 3) taken from a book entitled, "A Guide for Planning School Buildings", published in Lansing, Michigan, in 1945 shows 24 acres as the minimum recommended for a school of 1,000 pupils. We have much other data supporting our recommendation, data stressing the importance "quiet", freedom from traffic congestion, "freedom from smoke" and also, of course, of room for the development of parking space and athletic and physical education areas.

The 24 Factors Or Points of Difference

Now let us look at the work sheet we developed (exhibit 4), listing the five sites to be studied and the 24 factors common to all on which they could be compared. In addition to these 24 factors there are several other important considerations which apply only to one or two sites. These will be discussed later.

We have already discussed the first factor. The second is "Acreage now owned by the Town", an obvious consideration as is "Acreage to be Purchased".

A factor to be considered in connection with each site is the "Athletic and Physical Education Facilities now Available", as well as the "Opportunity for Development of Athletic Facilities." Naturally to be considered are "Future Extension Possibilities", "Suitability for Normal Building Foundations", "Cost of Preparing Site—Drainage, etc." "Availability of Space for Parking Area", "Freedom from Injury to Existing Facilities" as would be the case, for instance, if a school were to be built on land now used as a playground. Two other factors of obvious importance are "Distance to Population Center" and "Distance to Geographical Center." Also of vital importance is the matter of value of property to be taken. There are two considerations here. The first is the "Cost to the Town" and second, "Value to the Town after Conversion to

School Purposes." This will be explained at greater length later when we give you the actual dollar figures.

Other considerations of course, are the cost of "street", "water", "sewer" and "electric" connections, and here again we have the additional consideration of the value to the Town of these facilities for other than school purposes. Last, there are two intangible considerations.

The first is "Beauty of Setting and Freedom from Smoke, Noise and Traffic Congestion." Most authorities list this consideration second only to acreage in importance. And the last factor on which all the sites can be compared is "Freedom from Disruption of School Activities During Construction."

Description of Sites

Now let's look at these sites one by one, first locating them on the Town Map (Exhibit 5).

Birch Meadow

The first is Birch Meadow. (Exhibit 6) As those of you familiar with land know, the name "Birch Meadow" is a misnomer—at least so far as the proposed building site is concerned. The level part of this area was at one time a farm and was later flooded by a mill dam. In fact, the sluice-way is still recognizable near the northwest corner of the plot. The total area under consideration consists of 38 acres made up of the hill on the eastern side, where it is proposed to build the high school, knolls, and fields, 33.2 acres are now owned by the Town, and the area to be taken if this site is chosen is 4.8 acres with an assessed valuation of \$3,300.00. Including the land to be taken, there are now 20 acres of high or filled land south and southwest of Waverly Road. Of the balance, some is already filled; some requires no fill; and some is gradually being filled with clean material by the Public Works Department.

The 20-acre filled area now has a softball field, tennis courts, and other athletic and recreational facilities which will be described later. On this drawing we have outlined the building which the School Department had designed for this site, so that you can form a better idea of relative areas.

Junior High School

Next is the Junior High School site (Exhibit 7) where the entire area under construction is 24 acres including that used by the Junior High School. Of these 24 acres, the Town owns 16, and 8 acres with an assessed valuation of \$85,325.00 would have to be taken. Here again we have drawn an outline of the proposed school. Of course, this is probably not the design that would be used at this site, but it does serve to indicate the amount of space for the building. The land to be taken is

the entire frontage on Summer Ave. between King and Temple Streets and the frontage on Temple Street down to its end. The land between the school and the railroad tracks is low and most of it is unfilled.

Senior High School

Next is the Senior High School site (Exhibit 8) of which the Town now owns 1.59 acres. The 1.54 acres that should be taken if this site is to be used, have an assessed valuation of \$38,675.00. It is impractical to take land to the south in this same block because of the nature of the property, which includes the First Baptist Church and parsonage. Another objection is the fairly steep slope of the land to the south of the present school property. The total acreage available here is 3.13 and is too small to show an outline of the high school building.

Sunnyside Ave. and the Washington St. Playground

The Sunnyside Avenue area (Exhibit 9) totalling 20 acres consists of the Washington Street Playground now owned by the Town and having 5.5 acres and 14.7 connected acres having an assessed valuation of \$5,200.00 which would have to be taken. The Washington Street Playground contains the only regulation-size baseball diamond in Reading. It is well laid out and in good condition. The area around the diamond isn't quite as great as is desirable, but the diamond is used for high school games. There are also two tennis courts and other facilities which will be described later. The 14.7 acres that would have to be taken is made up of about 60% of land now being farmed and 40% of woodland. The land being farmed is good, solid ground which would be suitable for a high school building. Much of the woodland however, is low and swampy.

Sweetser Field

Sweetser Field (Exhibit 9) consists of approximately 6.75 acres. We understand that some of this land is available to the Town as a gift. At least there was an item in the Chronicle to that effect two or three years ago. However, it is understood that the owners would want to retain a house and barn which are on the western side of the property near the intersection of the railroad tracks and Main Street, and they would want to keep a suitable amount of land around these buildings. The whole area is assessed for \$16,425.00, of which \$3,950.00 is for the buildings.

Here again we have not traced the proposed building, but the drawing of the Sunnyside Avenue site shows about what proportion of the space it would occupy. Here, as at each of the other sites, the ground is suitable for foundations.

Comparison of Sites

Now, let's see how these figures you have seen compare (Exhibit 4). First, the factor of available acreage. As we have seen, at Birch Meadow, there are 38 acres; at Junior High, 24; Senior High, 3.13; Sweetser Field, 6.75; and Sunnyside Avenue, 20. To score these sites we have given an arithmetic score of 1 to sites having 20 or more acres and have scored the others in the same ratio to 1 as their acreage is to 20. In the case of Junior High School we have given a score on 14 acres in order to give effect to the 10 acres which is deemed necessary for the Junior High School's own use. This gives a score of 1 to Birch Meadow, .7 to Junior High School, .15 to Senior High School, .34 to Sweetser Field, and 1 to Sunnyside Avenue.

On the other 23 factors the arithmetic scores range from 0 for the poorest to 1 for best. In the case of acreage now owned by the Town, for instance, Birch Meadow with 33.2 acres so owned, gets a score of 1, whereas Sweetser Field gets a score of 0. Although some of the Sweetser Field land may be available as a gift, the Town would be losing the assessed valuation, and this was deemed a proper score. Scores on the other sites fall into proper ratio.

On the factor of acreage to be purchased, the scores are .73 for Birch Meadow, .47 for Junior High, 1 for Senior High School with the least acreage to be purchased, .57 for Sweetser Field and 0 for Sunnyside Avenue with most acreage to be purchased.

In the case of athletic and physical education facilities now available, we have given the highest score to the Junior High School site, where there is a regulation football field with the bleachers, a cinder track, a softball field with back stop, an indoor modern gymnasium, and a basketball court. The football field gives occasional trouble by being slippery and sometimes creates a considerable traffic problem in nearby streets. Incidentally, this also happens when there is any well attended event at the school. However, the athletic facilities are the best in Town and give this site a score of 1 on this factor. At the Sunnyside Avenue there are a baseball diamond, two tennis courts, six electrically-lighted horseshoe courts, a wading pool, a basketball backboard, swings, and one of the Rube Goldberg arrangements of pipes known as a "Jungle Gym", giving it second place with a score of .7. Birch Meadow with its six tennis courts, five of which can be lighted for night games, a handball court, wading pool, hockey rink, its larger skating area, a softball field with bleachers, Jungle Gym, swings, and two outdoor fireplaces, rate third. The Senior High School does have a combination basketball court and gymnasium which is inadequate. Both this site and Sweetser Field where sandlot ball is played, have been given a score of 0 on this factor.

The next two factors are scored on the basis of land available. In the case of "future extension possibilities" we have given consideration to extension of both outdoor and indoor facilities.

In the case of "suitability for normal building foundations" we found that there is practically no difference in the various sites. Although conditions are different, type of construction would be adjusted accordingly and costs would be about equal, as near as this committee could determine without detailed plans and engineering investigation.

The same is true in the case of the next factor which includes drainage and landscaping of the actual building site and land immediately adjacent thereto. Here again, although the work would be different at the various sites the cost as nearly as can be determined need not vary appreciably.

On the next factor, "availability of space for parking area" the scores are again, of course, based on land available.

In the case of "freedom from injury to existing facilities" there would be none with the exception of the Junior High School, where land now used for play or parking would have to be built on.

Scores on "distance to population center" (Exhibit 5) and "distance to geographical center" are mathematically exact. The distances are given in miles. The "population center" is calculated to be a little south-east of the Highland School just across School Street from the end of Dudley Street. It is interesting to note that the distance from the population center to the Birch Meadow building site is only 12/100 of a mile farther than to the Sunnyside Avenue site. This means that a shift northward in the population center of 6/100 of a mile, or 317 feet, would make these two sites equally distant from the population center. This fact, no doubt, will come as a surprise to many people who remember Reading when its population was only half of what it is now. On this factor the Senior High School gets a high score, with Junior High and Sweetser Field tied for second place, Sunnyside Avenue 4th, and Birch Meadow, last with 0.

"Distance to the geographical center of the Town" is also an important consideration because the probable trend of the "population center" is toward the "geographical center". For instance, of the 75 homes built in Reading in 1945 and 1946 36 are north of the Birch Meadow Site, and 14 are south of the Sunnyside Avenue site. 47 are north of the present "population center" and 28 south thereof.

In discussing location it perhaps should be pointed out that a new high school might benefit by having certain facilities available elsewhere for a while after the new building actually goes into use. For instance, if the new high school did not have a football field as is the case with the present high school, the squad would go back and forth to Junior High School for practice. Listed in their order of convenience from this point of view, the sites are: Sunnyside Avenue, Senior High School, Sweet-

ser Field and Birch Meadow.

While discussing the geographical aspects of the problem, a few other facts should be brought out. According to the Planning Board Map as Revised to 1941, there were at that time 90 homes in Reading more than 2 miles from Birch Meadow; there were 200 homes more than 2 miles from Junior High School; and there were 216 homes more than 2 miles from the Sunnyside Avenue site. This would be an important consideration if it is ever decided to transport high school pupils 2 miles or more distant from the school.

Another interesting fact is the available acreage suitable for building above and below a line drawn east and west through the center of population. There are approximately 1471 acres north of such a line and 640 acres south of it. We calculate that if all land in Reading suitable for building was built on, the center of population would be near the western end of Weston Rd.

On the next two factors the scores are again exactly mathematical on the basis of dollars. Although it is realized that actual cost of property to be taken would be more than assessed valuations and that there would be demolition expenses, the assessed valuation figures do give us an accurate comparison.

In the case of "value to Town after conversion to school purposes" the figure given is the assessed value of land only; that is, in the case of property where there are buildings, it is the value after the buildings have been removed.

Again, in the cases of street, water, and sewer costs, scores are precisely based on estimated dollar costs. It was found that the cost of electrical connections was approximately the same at all sites. This seemed a little surprising at first but a double check was made and it was found to be so. In the case of the sewer connections at Birch Meadow, it should be stated that cost figure is based on bringing in a sewer from the Hartshorn Street or westerly side. It would be possible to bring a sewer in from the Main Street at a slightly less cost to the Town, but the Public Works Department feels it would be of greater benefit to the Town to come in from Hartshorn Street.

The "value to the Town for other than school purposes" of these three utility additions is evaluated next. It is interesting to note that the additional eventual cost to the Town of sewerage at Birch Meadow, an item which has caused many qualms in early discussions, is actually only \$10,000.

The next two factors are the only ones where opinion replaces fact as a basis of scoring. In the case of "beauty of setting, etc." our Committee very carefully studied all the sites, under both summer and winter conditions, and we have scored them according to our best judgment. Birch Meadow which has been given the highest score is 38 acres of fields and wooded knolls and is surrounded on the west and north by

woods, on the east by a hilltop with a few houses, and on the south by woods and houses with the tennis courts lying along the edge of the tract.

The Sunnyside Avenue site, which ranks next, is bounded on the west by some wooded land, a greenhouse and houses, the north, by a house and greenhouses; on the east, by an entrance to Washington Street Playground, houses and other buildings; and on the south by wooded land.

The Junior High School is in an attractive setting, except that the railroad tracks run along its northeastern side.

The Senior High School is in a congested area as is Sweetser Field, which in addition abuts on the railroad tracks.

As to the final factor, there would be no disruption of activity at Birch Meadow, Sweetser Field, or Sunnyside Avenue. At the Junior High School, there would necessarily be some interference with school activities, and at the Senior High School there would be considerable to complete disruption of school activities.

Degree of Importance of the 24 Factors

Now, it is obvious that some of these factors are more important than others, and our next task was to evaluate them. The committee members had this in mind from the time our analytical approach was decided upon. We had discussed the matter with Mr. Russell Mack of the State Department of Education and with our own school officials before beginning to work out our figures. This part of our job was done with painstaking care over a period of several weeks.

Most authorities consider that primary requirements in a school site are: first, adequate space for present needs and future expansion of both building and outdoor facilities; second, suitable surroundings with freedom from noise, smoke and traffic congestion; and third, "convenience of location" a slightly higher score than "suitable surroundings", having given a weight of 11% of the total problem to "distance to population center" and 4% to "distance to geographical center", compared with 10% for "beauty of setting". We have grouped the factors as you see, having given a total weight of 50% to all the physical factors, 15% to location", 15% to "value of property to be purchased", 5% to "utilities costs", 3% to "utilities value to Town for other than school purposes", and 12% to the two intangibles.

We grouped these factors because to some extent the weight given in certain cases is interchangeable with others, and it is really the total that counts. For instance, "available acreage", opportunity for development of "athletic facilities", "future extension possibilities", and "availability of parking space" are really almost the same thing, so that the total of the weights given these factors is really the weight given the overall area factor.

"Acreage now owned by the Town" and "acreage to be purchased",

though temporary considerations, are important both from the point of view of cost and of inconvenience to owners of property which would have to be acquired, particularly in these days of housing shortages.

As stated earlier, there is no important difference in the sites under consideration in the case of either suitability for normal building foundations or cost of preparing the actual building sites. Therefore, each of these factors has been given a weight of 0, but as in the case of electricity they have been left in this list to show that they have been studied.

"Freedom from injury to existing facilities" such as the recreational or parking areas, at the Junior High School, has been given a weight of 3.

"Assessed value of property to be taken" has been given a weight of 13 in consideration of the importance of costs, particularly under present conditions.

"Value to Town after conversion to school purposes" is weighted at 2 because the amounts are comparatively small, and the likelihood of sale by the Town slight for several decades at least.

Each item under "Utility costs" has been given a weight corresponding roughly to its relation to the cost of the whole project, as is the case in their "value to the Town for other than school purposes."

We have already discussed the next factor and, although "freedom from disruption of school activities during construction" would be important in the case of the Senior High Site, it would be a temporary condition and seemed to us to be about 2% of the entire problem.

Final Score

Now, the scores which you see at the bottom of the statistical tabulation are the totals of the arithmetic scores times the degree of importance. That is, in the case of Birch Meadow, for instance, the arithmetic score in the first factor, is 1 and the degree of importance is 22, giving us a weighted score of 22 times 1. These final scores are

Birch Meadow	78.39
Sunnyside Avenue	71.405
Junior High School	53.16
Senior High School	37.79
Sweetser Field	37.36

So much for the factors common to all sites.

Special Considerations

As stated earlier, there are also a few considerations special to two of the sites. First, the case of Birch Meadow. The photograph (Exhibit 10) shows only a very small part of the area. It does, however, show the hill on which it is proposed to build the new school. It is taken from the softball field looking east. The hill, as has been said, is on the

southeastern edge of the Birch Meadow area, and the proposal is to build the school along the side of the hill which you see. There are now twenty acres of good land available here. In addition, there is another 18 acre piece, some of which requires fill, which is already owned by the Town on this location. Another advantage is the shape of the plot which lends itself to efficient use.

The other site on which there are special considerations is Sunnyside Avenue. The photograph (Exhibit 11) which are taken at the Sunnyside Avenue Site, as in the case of the Birch Meadow picture, shows only a small section of the area. However, it does give you some idea of the tract's appearance. It is taken from the edge of Washington Street Playground looking west across the cultivated area which lies south of the greenhouses. In fact, you can see a corner of one greenhouse. The houses you see are on Sunnyside and Fairview Avenues.

One special consideration at this site is the lowness of the land to the west and south of the area now under cultivation. The greater part of this land is swampy. There is a brook with a tributary which flows through it all the year round, and judging by the erosion we saw, this brook overflows its banks for many feet in some places at some times of the year. This lowness probably accounts for the fact that the land has never been developed. One of the owners of the adjacent cultivated land said he did not even consider it worth using for horticultural purposes. When a garage was built on Main Street just to the east of this area, it was necessary to put in piles under one corner where workmen struck about 15 feet of peat, under which were 4 feet of hard pan with soft running sand under this. As a matter of fact, the previous committee to report on available high school sites rejected the Sunnyside Avenue area from further considerations because of this swampy condition. However, the acreage is there, the brooks could be routed through culverts and the land filled and made suitable for play fields or a parking area.

There is one other situation which affects this area adversely as a site for a high school. Although the cultivated area here is simply farm land assessed for only \$5,000.00, it is used in conjunction with the greenhouses which you saw on the tracing of this site. The greenhouse proprietors told us that they use the land to change soil in the greenhouses. It is also used during some of the summer months in growing carnations. These plants are started in the greenhouse in winter and transplanted outdoors in early summer, left there for a few weeks, and then re-transplanted back into the greenhouses. According to the greenhouse owners, their entire property, including the greenhouses and boiler plant, would be worthless for their purposes without this land. When asked for their idea of the extent of the damage to their business in case the land was taken for school purposes, they gave us a figure of \$150,000. They told us that this would be approximately the cost of replacing the

greenhouses and boiler plant some where else or moving the present buildings. We asked other greenhouse proprietors for their ideas and were told that greenhouses could be and are used without changing the soil by some growers, particularly of vegetables. It is obvious, therefore, that although taking the land under consideration make the property valueless in the eyes of the present owners, it probably could be given some value if used for different crops. The Town Counsel, advised us that in the case of land taking in Reading, there is no limit, as there is in cities, on the amount the Court could award an owner.

That completes our presentation of facts about these five sites.

The work of this Committee was done at a cost to the Town of under \$100.00.

The Committee wishes to thank the State Department of Education, the Reading Public Works Department, the Municipal Light Board, the Board of Assessors and the Reading School Department for their willing and indispensable co-operation.

Respectfully submitted,

Article 22. On motion of Alexander Glover it was voted to take up Article 22.

That the Board of Selectmen be and they hereby are authorized and empowered to acquire for and in behalf of the Town, by purchase, eminent domain or otherwise, certain parcels of land with the buildings thereon in or adjoining Birch Meadow, so-called, being the Northeasterly portion of Lot 61 containing approximately 3.37 acres, which lot is shown on Town of Reading Assessors Plat 35, Lot 41, 47, 117, 118, 122 and 123 as shown in Town of Reading Assessors Plat 64, and to dedicate certain other parcels of land now owned by the Town, being Lots 33 to 40 both inclusive, Lots 42 to 46 both inclusive, Lot 116, 119, 120, 121, and 124 and 125 all as shown on said Town of Reading Assessors' Plat 64, including that part of Cold Spring, Hillside, Glendale and Oakland Roads, Private Ways as may be determined by the School Committee or such portions of the above lots or parcels as said Committee may deem advis-

able, for the construction of a new Senior High School, and that the sum of ten thousand (10,000) dollars be raised and appropriated for such purchase or taking.

125 voted in the affirmative. 17 voted in the negative.

Article 3. On motion of Kenneth Latham it was voted to take up Article 3.

On motion of Kenneth Latham it was voted that the following be chosen to serve as Measurers of Lumber for the ensuing year: Harold B. Currell, Fred F. Smith, Maurice H. Donegan. And that the following be chosen to serve as Measurers of Wood and Bark: Percy N. Sweetser, Harold B. Currell, Thomas F. Brogan.

Article 3. On motion of Harold Putnam it was voted that Mr. Newell H. Morton be and he hereby is elected a member of the Recreation Committee to fill the vacancy created by the Resignation of Charles N. Sweetser.

Article 4. On motion of Kenneth C. Latham it was voted that the sum of Thirty-six Thousand Nine Hundred and Fifty One Dollars and Fifty Cents (\$36,951.50) be raised and appropriated for General Government as follows:

Selectmen's Expenses	\$ 1,000.00
Selectmen's Clerical	1,820.00
Town Accountant's Salary	3,300.00
Treasurer's Salary	1,700.00
Treasurer's Expenses	800.00
Treasurer's Clerical	525.00
Collector's Salary	2,915.00
Collector's Expenses	1,100.00
Assessor's Salaries	3,000.00
Assessor's Expenses	1,500.00
Assessor's Clerical	3,640.00
Town Counsel's Salary	1,625.00
Town Counsel's Expenses	550.00
Town Clerk's Salary	1,200.00
Town Clerk's Expenses	1,071.50
Registrars' Salaries	450.00
Registrars' Expenses	955.00
Election and Registration Expense	1,000.00
Planning Board Expense	100.00
Miscellaneous Expense	5,500.00
Municipal Building Maintenance	1,640.00
Janitor's Services, Municipal Building	1,560.00
	<hr/>
	\$ 36,951.50

Article 4. On motion of Kenneth C. Latham it was voted that the sum of One Hundred Twenty Eight Thousand, Seven Hundred and Five Dollars and Sixteen Cents (\$128,705.16) be raised and appropriated for Protection of Persons and Property as follows:

Police Dept. Salaries	\$ 47,120.00
Police Dept. Pensions	4,483.16
Police Dept. Maintenance	6,200.00
Police Station Maintenance	2,175.00
Fire Dept. Salaries	35,900.00
Fire Dept. Callmen Salaries	3,850.00
Fire Dept. Pensions	3,850.00
Fire Dept. Maintenance	3,025.00
Fire Stations Maintenance	2,080.00
Fire Alarm Maintenance	2,275.00
Fire Alarm Extension	800.00
Hydrant Rentals	500.00
Moth and Tree Dept. Salaries	10,866.25
Moth and Tree Dept. Maintenance	3,133.75
Inspector of Building Salary	1,000.00
Inspector of Wires Salary	210.00
Sealer of Weights and Measures Salary	551.25
Sealer of Weights and Measures Expense	250.00
Game Warden Salary	105.00
Dog Officer's Salary	330.75
	<hr/>
	\$128,705.16

Article 4. On motion of Charles E. Wilkinson it was voted that the sum of Eleven Thousand Two Hundred and Eight One Dollars (\$11,281.00) be raised and appropriated for Health and Sanitation as follows:

Board of Health Salaries	\$ 315.00
Board of Health Expenses	300.00
Inspector of Plumbing Salary	525.00
Inspector of Animals Salary	220.50
Inspector of Milk and Food Salary	220.50
Care of Contagious Diseases	5,000.00
Garbage Collection	3,600.00
Dental Clinic	1,100.00
	<hr/>
	\$ 11,281.00

Article 4. On motion of Clarence J. Stalliday it was voted that the sum of One Hundred Thirty Eight Thousand, Four Hundred and

Seventy-Five Dollars (\$138,475.00) be raised and appropriated for charities and aid as follows:

Salaries for General Aid, Administrative	\$ 4,000.00
Office Expense for General Aid, Administrative	600.00
General Aid	17,500.00
Salaries for Aid to Dependent Children, Administrative	1,700.00
Aid to Dependent Children	16,675.00
Salaries for Old Age Assistance, Adm.	7,000.00
Old Age Assistance	91,000.00
	<hr/>
	\$138,475.00

Article 4. On motion of Kenneth C. Latham it was voted that the sum of Eleven Thousand Dollars (\$11,000.00) be raised and appropriated for Veterans' Benefits as follows:

Salaries	\$ 1,644.00
Office Expense	575.00
Aid	8,781.00
	<hr/>
	\$ 11,000.00

Article 4. On motion of Alexander Glover it was moved that the sum of \$440,413.94 be raised and appropriated for the School Department as follows:

General Salaries including Superintendent, teachers, clerks, janitors, matrons, and compulsory attendance	\$331,718.94
General Maintenance, including travel outside State	61,695.00
Industrial Tuition	2,000.00
School Cafeteria	45,000.00
	<hr/>
	\$440,413.94

Article 26. Motion made by Gilbert Lothrop to take up Article 26 together with Article 4 was voted unanimously. On motion made by Gilbert Lothrop that the School Committee's appropriation be amended under General Salaries by substituting \$358,061.46 thereby changing the total School Department appropriation from \$440,413.94 to \$466,756.46. Voted in the negative.

The original motion of Article 4 as made by Mr. Glover was then voted in the affirmative.

Article 4. On motion of Fred Nutter it was voted that the sum of fifteen thousand two hundred dollars (\$15,200.00) be raised and appropriated for salaries for the maintenance, care and development of Laurel Hill Cemetery and Forest Glen Cemetery, including travel outside the State.

Article 4. On motion made by William J. Tonks that the sum of eleven thousand three hundred and fifty-three dollars (\$11,353.00) be raised and appropriated for the Public Library to be divided as follows:

Salaries	\$ 8,003.00
Maintenance	3,350.00
	<hr/>
	\$ 11,353.00

Article 4. Substitute motion made by Gardner Long that the sum (\$10,650.00) ten thousand six hundred fifty dollars be raised and appropriated for the Public Library to be divided as follows:

Salaries	\$ 7,300.00
Maintenance	3,350.00
	<hr/>
	\$ 10,650.00

The vote on Mr. Tonk's motion was in the negative.

The vote on Mr. Long's motion was in the affirmative.

Article 4. On motion of Harold Putnam it was voted that the sum of Two Hundred and Twenty-Four Thousand Nine Hundred Twenty-five (\$224,925.00) Dollars be raised and appropriated for the Board of Public Works as follows:

Salaries for Administration	\$ 6,050.00
Supplies and Office Expenses	875.00
Salaries for Construction and maintenance of highways	32,500.00
Expenses for Repairs, construction and maintenance of highways, setting curbs, purchase or otherwise acquiring land for sand and gravel purposes, purchase of material, tools and equipment and other incidental expenses pertaining thereto	29,500.00
Salaries for Removal of snow and ice	11,000.00
Expenses for Removal of snow and ice	9,000.00
Salaries for Construction and maintenance of sidewalks	7,400.00
Expenses for Construction and maintenance of sidewalks ..	2,400.00
Salaries for Maintenance of Storm Drains	3,000.00
Expenses for Maintenance of Storm Drains	2,600.00
Salaries for Construction of Storm Drains	5,800.00
Expenses for Construction of Storm Drains	3,800.00
Salaries for Maintenance of Dumps	2,400.00
Expenses for Maintenance of Dumps	200.00
Salaries for Maintenance of Park Dept. and Common and Supervised Play	6,000.00
Expenses for Maintenance of Common and Park and Supervised Play	2,500.00

Salaries for Maintenance, Operation and Extension of the Sewer System	9,000.00

Total	\$224,925.00
-------------	--------------

Article 4. On motion of Charles E. Wilkinson it was voted that the sum of One Thousand Dollars (\$1,000.00) be raised and appropriated for Memorial Day Observance, to be expended under the direction of Post No. 62, American Legion and Post No. 685, Veterans of Foreign Wars.

Article 4. On motion of Charles E. Wilkinson it was voted that the sum of Two Thousand One Hundred and Twenty Seven Dollars and Fifty Cents (\$2,127.50) be raised and appropriated for Interest not including Water, Light and Sewer.

Article 4. On motion of Charles E. Wilkinson it was voted that the sum of Twenty Thousand Dollars (\$20,000.00) be raised and appropriated for Maturing Debt, not including water and light.

Article 4. On motion of Boyd Stewart, it was voted that the sum of Twenty Six Thousand Five Hundred and Twenty Seven Dollars and Forty Seven Cents (\$26,527.47) be raised and appropriated for the Contributory Retirement System to be divided as follows:

Pension Accumulation Fund	\$ 25,777.47
Expense Fund	750.00

\$ 26,527.47

Article 4. On motion of Kenneth C. Latham it was voted that the sum of Fourteen Thousand Seven Hundred and Forty Nine Dollars and Seventy One Cents (\$14,749.71) be raised and appropriated for Insurance.

Article 4. On motion of Herbert Evans it was voted that there be included in the tax levy, for electricity used for street lights, the sum of Sixteen Thousand Dollars (\$16,000.00), and that said sum and the income from sales of electricity to private consumers and for electricity supplied to municipal buildings, and for municipal power, and from sales of appliances and jobbing during the current fiscal year be appropriated for the Municipal Light Plant, and that the sum of Twelve Thousand (\$12,000.00) Dollars be appropriated from the said receipts of the department for the sale, installation and servicing of merchandise, equipment, utensils and chattels, as provided in Section 34 of Chapter 164 of the General Laws, said appropriations to be expended by the Manager of the Municipal Lighting, under the direction and control of the Municipal Light Board, for the expense of the plant, including payments of Bonds and Notes, the sale, installation and servicing of merchandise, equipment, utensils, and chattels, as defined in Chapter 164 of the General Laws, or any amendments thereof or addition thereto, and that if said sum of \$16,000 and said income shall exceed said expense for said fiscal year, such excess up to the sum of Fifty Thousand (\$50,000) Dollars shall be paid into the Town Treasury, and the balance, if any, shall be transferred to the Construction Fund of said Plant and appropriated and used for such additions thereto as may thereafter be authorized by the Municipal Light Board.

Article 4. On motion of Kenneth C. Latham, it was voted that the sum of Twelve Thousand Dollars (\$12,000.00) be appropriated by transferring said sum from the Overlay Surplus Reserve Fund to the Reserve Fund, and that the Town Accountant be and he hereby is authorized and instructed to transfer said sum to carry out the purpose of this vote.

Article 4. On motion of Charles E. Wilkinson it was voted that the sum of Nine Hundred Dollars (\$900.00) be raised and appropriated for the preparation and printing of the Street Lists for the year 1947, such sum to be expended under the direction of the Board of Selectmen.

Article 4. On motion of Charles E. Wilkinson it was voted that the sum of One Thousand Eight Hundred Dollars (\$1,800.00)) be raised and appropriated for the further development of the Town Forest, as follows:

Salary	\$ 1,700.00
Materials and Supplies	100.00
	<hr/>
	\$ 1,800.00

On motion of Kenneth C. Latham it was voted to lay article 4 on the table.

On motion of Kenneth Latham it was voted to adjourn, to meet in Security Hall on Monday, March 24, 1947 at 7:45 P. M.

ADJOURNED ANNUAL TOWN MEETING

Security Hall

March 24, 1947

The fact that this meeting was an adjourned meeting of the March 17, 1947 meeting, no notice was required by the Town Clerk.

Article 5. On motion of Kenneth Latham, it was voted that the Town Treasurer, with the approval of the Selectmen, be and he hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1948, and to issue note or notes therefor payable within one year, and to renew any note or notes as may be given for a period of less than one year, in accordance with Section 17 of Chapter 44 of the General Laws.

Article 6. On motion of Kenneth Latham, it was voted that the sum of Two Hundred Dollars (\$200.00) be raised and appropriated for the purpose of foreclosing in the Land Court pursuant to provisions of Section 65 of Chapter 60 of the General Laws, the right of redemption of any and all real estate taken by the Town for non-payment of taxes.

Article 7. On motion of Boyd Stewart it was voted that a sum not exceeding One Thousand (\$1,000.00) Dollars be transferred from General Highway appropriation and that a sum not exceeding Two Thousand (\$2,000.00) Dollars be transferred from Surplus Revenue and appropriated for maintenance of various streets previously constructed under Chapter 90 General Laws; and that a further sum of Fifteen Thousand (\$15,000.00) Dollars be transferred from Surplus Revenue and appropriated for the construction under Chapter 90 General Laws of a portion of Lowell Street provided however, that such sums received as reimbursements from the State and County shall be credited to Surplus Revenue.

Article 8. On motion of Kenneth Latham it was voted that the sum of Eight Hundred Dollars (\$800.00) be raised and appropriated for the care of graves of any persons who have served in the Army, Navy or Marine Corps of the United States, in time of war or insurrection and who have been honorably discharged from such service, as provided by Section 22, Chapter 115, General Laws.

Article 9. On motion of Boyd Stewart it was voted that the sum of Eight Hundred and Ninety Six Dollars and Forty-three cents (\$896.43) be raised and appropriated to pay into the Contributory Retirement System for Municipal Employees, excluding school teachers, for the benefit of municipal employees on military leave of absence during the year 1946 as provided for and under the authority of Chapter 419 of the Acts of 1943.

Article 10. On motion of Kenneth Latham it was voted to indefinitely postpone Article 10.

Article 11. On motion of Kenneth Latham it was voted that Article III of the By-laws of the Town be and the same hereby is amended by adding after Section 2 the following sections:

Section 3. The Collector of Taxes shall collect, under the title of Town Collector, all accounts due the Town which are committed to him.

Section 4. Every department of the Town shall deliver to the Town Accountant at least once in every month a separate statement of each account due the Town arising through any transaction with such department. Upon receipt of such statements of accounts the Town Accountant shall commit such accounts to the Town Collector for collection. This section shall not apply to taxes and special assessments, licenses and permits issued or granted by the various departments of the Town nor to costs and fees charged by said departments, nor to interest on investments of sinking or Trust funds, nor to accounts due the Municipal Light Department.

Section 5. Any account committed by the Town Accountant which the Town Collector is unable to collect by ordinary efforts may be referred by the Town Collector to the Town Accountant or Town Counsel for instruction as to procedure. So far as permitted by law any account or portion thereof may be abated by the department in which such account originated. The Town Accountant shall be notified in writing of the abatement of any such committed account or portion thereof.

Section 6. The Town Collector shall, once in each week or oftener, pay over to the Treasurer all money received by him during the preceding week or lesser period on every such account, including any sums received as interest on moneys received by him on such accounts and deposited in any bank. He shall give bonds to the Town for the faithful performance of his duties in a form approved by the Commissioner of Corporations and Taxation and in such sum, not less than the amount that may be established by said Commissioner, as shall be fixed by the Selectmen.

Article 4. On motion of Charles E. Wilkinson it was voted to take Article 4 from the table. On motion of Charles E. Wilkinson it was voted that the sum of two thousand six hundred dollars (\$2,600.00) be raised and appropriated for Tax Collector's Clerical Expense.

Article 4. On motion of Kenneth Latham it was voted to lay Article 4 on the table.

Article 12. On motion of Kenneth Latham it was voted to take up Article 12.

Article 12. On motion of Kenneth Latham it was voted that the Board of Selectmen be authorized and empowered to petition the Director of Accounts of the Department of Corporations and Taxation for the installation of an accounting system in accordance with the provisions of Chapter 44 of the General Laws.

Article 13. On motion of Fred Nutter it was voted that the sum of one thousand dollars (\$1,000.00) be appropriated from the Cemetery Reserve Fund receipts from the sale of lots and graves in Laurel Hill Cemetery and Forest Glen Cemetery for the Maintenance, care, improvement and embellishment of said cemeteries, under the provisions of Section 15 of Chapter 114 of the General Laws.

Article 14. On motion of Fred Nutter, it was voted that the sum of two thousand dollars (\$2,000.00) be raised and appropriated for the purchase of a motor truck for the use of the Cemetery Department.

Article 15. On motion of Harold Putnam it was voted that the sum of Twenty Thousand (\$20,000.00) Dollars be appropriated from the unexpended balance in the Road Machinery Account and transferred to the Road Machinery Fund for the maintenance, repair and operation of road machinery and for the purchase by the Board of Public Works of one trailer, one clam shell bucket, one tractor with front mounted bucket and one truck and that the proceeds received from the old equipment shall be appropriated in addition to the \$20,000.00 as part of the purchase price for the above mentioned equipment, and that the Town Accountant, be and he hereby is authorized and instructed to transfer said sum to said account.

Article 16. On motion of Harold Putnam it was voted that the sum of Five Thousand (\$5,000.00) Dollars be appropriated for the purpose of improving and constructing a portion of Lowell Street from Winthrop Avenue Southeasterly toward Reading Square together with such sums as may be provided by the State and County under Section 34, Chapter 90 of the General Laws. Five Hundred (\$500.00) Dollars of said \$5,000.00 shall be raised from the tax levy and Four Thousand Five Hundred (\$4,500.00) Dollars shall be appropriated by transferring said amount from the unexpended balance in the Charles Street Chapter 90 Construction account, and that the Town Accountant be and he hereby is authorized and instructed to transfer said sum to carry out the purpose of this vote.

Article 17. On motion of Harold W. Putnam it was voted that the Town accept the report of the Board of Public Works on the laying out as a Public Way of a Private Way known as Curtis Street and adopt the recommendations contained therein.

TOWN OF READING

Middlesex, ss.

March 1947

Report of the Board of Public Works on the Laying Out of Curtis Street

The Board of Public Works of the Town of Reading having determined and adjudged that common convenience and necessity require the laying out of a town way under the provisions of law authorizing the assessment of betterments, substantially in the location hereinafter

described, having complied with all requirements of law relating to notice to the owners of land thereof and of a hearing thereon, and having met at the time and place appointed for such hearing and then and there heard all persons present who desired to be heard, have laid out as a town way for the use of the Town running in a Southerly direction from the present Town Way known as South Street as accepted April 3, 1876, a distance of 1010.90 feet to a dead end, substantially as and in the location of the Private Way known as Curtis Street, the boundaries and measurements of said way as so laid out are as follows:

Beginnng at a point in the Southerly side line of said South Street, said point being N. 74° -13' 30" W. a distance of 308.95 feet, measured along said Southerly side line of South Street, from a Drill Hole in a stone wall on said Southerly side line of South Street;

Thence by a curved line West to South, having a radius of 20.0 feet, through lands of Hiram A. Tobey, Trustee of the Keeling Village Trust, a length of 31.97 feet to a point of tangent;

Thence S. 14° -10' 30" W. by lands of said Tobey, Trustee, and by lands of Jose Coelho, Maria Coelho, Anthony J. Braga, Jr. and Mary Braga, a distance of 442.58 feet to an angle point;

Thence S. 17° -10' 30" W., still by lands of said Coelho et al, lands of Jesse D. Martin and Agnes Q. Martin, and lands of Pinecroft Development Trust, George J. Farpelha, Trustee, a distance of 547.15 feet to a point, said point being the Southerly terminus of the Easterly side line of this layout;

Thence N. 75° -55' 50" W., a distance of 40.06 feet to a point, said point being situated at the Southerly terminus of the Westerly side line of this layout;

Thence N. 17° -10' 30" E., by lands of Martin Butt and Ellen E. Butt, Raymond G. Iverson and Helen E. Iverson a town way known as George Street, other lands of said Pinecroft Development Trust, and lands of Dana R. Perkins, a distance of 521.56 feet to a point of curve;

Thence by a curved line to the Left, having a radius of 1,000.0 feet, still by lands of said Perkins, a length of 52.36 feet to a point of tangent;

Thence N. 14° -10' 30" E., still by lands of said Perkins, lands of Edward D. Weadick and Mabel B. Weadick, and lands of Alice E. Doyle and George L. Doyle a distance of 417.07 feet to a point of curve;

Thence by a curved line to the Left, having a radius of 20.0 feet through lands of said Alice E. Doyle and George L. Doyle, a length of 30.86 feet to a point, said point being situated on the said Southerly side line of South Street;

Thence S. 74° -13' 30" E., along said Southerly side line of South Street, a distance of 80.03 feet to the point therein designated as the point of beginning.

The above described lines being more fully shown on a Plan entitled "Curtis Street, Reading, Mass.," dated January 1947, Board of

Public Works, Philip Welch, Supt., said Plan being a part of this description and being on file in the Office of the Board of Public Works of the Town of Reading.

We determine that no damages will be sustained by any person or persons in their property by reason of the taking to be made for this improvement. All acts in connection with said laying out are done under the provision of law authorizing the assessment of betterments and betterments are to be assessed therefor.

This laying out so made by us, we hereby report to the Town for acceptance and recommend that said way shall thereafter be known as a Public Town Way and named Curtis Street.

WENDELL P. DAVIS, Chairman
ALEXANDER LINDSAY, Secretary
HAROLD W. PUTNAM

Members of Board of Public Works
Town of Reading

Article 18. On motion of Harold W. Putnam it was voted that the Town accept the report of the Board of Public Works on the laying out as a Public Way of a Private Way known as George Street and adopt the recommendations contained therein.

TOWN OF READING

Middlesex, ss.

March 1947

Report of the Board of Public Works on the Laying out of George Street

The Board of Public Works of the Town of Reading having determined and adjudged that common convenience and necessity require the laying out of a town way under the provisions of law authorizing the assessment of betterments, substantially in the location hereinafter described, having complied with all requirements of law relating to notice to the owners of land thereof and of a hearing thereon, and having met at the time and place appointed for such hearing and then and there heard all persons present who desired to be heard, have laid out as a town way for the use of the Town running in a North-Westerly direction from a Town Way known as Curtis Street a distance of 368.53 feet to a dead end, substantially as and in the location of the Private Way known as George Street, the boundaries and measurements of said way as so laid out are as follows:

Beginning at a point on the Westerly side line of said Curtis Street, said point being N. 17°-10' 30" E., a distance of 141.50 feet measured along said Westerly side line of Curtis Street from a stone wall marking the South-Westerly terminus of said Curtis Street at Station 10 and 11.98 West;

Thence by a curved line to the Left, running in a Northerly and Westerly direction, having a radius of 20.0 feet, through lands of Raymond G. Iverson and Helen E. Iverson, a length of 32.25 feet to a point of tangent;

Thence N. 75°-30' 50" W., still by lands of said Iverson et ux, and by lands of Joseph W. Brown and Gladys Brown, Harry R. Livingston and Judith R. Livingston, and Clayton N. Hirtle and Georgina C. Hirtle, a distance of 325.75 feet to an angle point;

Thence turning and running S. 59°-27' W., still by lands of said Hirtle et ux, a distance of 31.37 feet to a point, said point being the Westerly terminus of the Southerly side line of this layout;

Thence turning and running N. 16°-14' E., by lands of Mary S. Jewett and by lands of Alice E. Doyle and George L. Doyle, a distance of 62.23 feet to a point, said point being the Westerly terminus of the Northerly side line of this layout.

Thence turning and running S. 75°-30' 50" E., by lands of Jake A. Ballentine and Virginia N. Ballentine, Edward J. Dinan and Catherine S. Dinan, and Pinecroft Development Trust, George J. Farpelha, Trustee, a distance of 349.76 feet to a point of curve;

Thence by a curved line to the left, running in an Easterly and Northerly direction, having a radius of 20.0 feet, still through lands of said Trust, a length of 30.48 feet to a point on the said Westerly side line of Curtis Street;

Thence S. 17°-10' 30" W., along said Westerly side line of Curtis Street, a distance of 80.08 feet to the point designated herein as the point of beginning.

The above described lines being more fully shown on a Plan entitled "George Street, Reading, Mass." dated January 1947, Board of Public Works, Philip Welch, Supt., said plan being a part of this description and being on file in the Office of the Board of Public Works of the Town of Reading.

We determine that no damages will be sustained by any person or persons in their property by reason of the taking to be made for this improvement. All acts in connection with said laying out are done under the provision of law authorizing the assessment of betterments, and betterments are to be assessed therefor.

This laying out so made by us, we hereby report to the Town for acceptance and recommend that said way shall thereafter be known as a Public Town Way and named George Street.

WENDELL P. DAVIS, Chairman
ALEXANDER LINDSAY, Secretary
HAROLD W. PUTNAM

Members of Board of Public Works
Town of Reading

Article 19. On motion of Harold W. Putnam it was voted that the sum of Nine Thousand Five Hundred and Thirty-five (\$9,535.00) Dollars be raised and appropriated for the construction of such streets as may be determined by the Board of Public Works, said sum to be apportioned as follows:

\$4,000.00 for salaries

\$5,535.00 for materials and other expenses.

Article 20. On motion made by Harold Putnam it was voted that article be indefinitely postponed.

Article 21. On motion of Harold W. Putnam it was voted that the sum of Forty Five Hundred (\$4,500.00) Dollars be raised and appropriated for the purpose of conducting and promoting recreation, play, sport, physical education and other social, educational and recreational activities upon such land and buildings as defined in Section 14 of Chapter 45 of the General Laws, with authority to exercise all powers conferred therein including the purchase of the necessary equipment and the employment of teachers, supervisors and other officers and employees and the fixing of their compensation.

Article 23. On motion of Alexander P. Glover it was voted that Article 23 be indefinitely postponed.

Article 24. On motion of Alexander P. Glover it was voted that the sum of thirteen thousand (\$13,000.00) dollars be raised and appropriated for the transportation of school children for the year 1947.

GUY W. ELLISON

Town Clerk

TOWN WARRANT

(Seal)

The Commonwealth of Massachusetts

Middlesex, ss.

To either of the Constables of the Town of Reading, Greeting:

In the name of the Commonwealth you are hereby required to notify and warn the inhabitants of the Town of Reading, qualified to vote in elections and town affairs to meet in Security Hall, Woburn

Street, in said Reading on **Monday, the Twenty-Seventh Day of October, 1947** at eight o'clock in the evening, to act on the following articles:

Article 1. To hear and act on the reports of Town officers and special committees and determine what instructions will be given Town officers and special committees.

Article 2. To see what sum the Town will vote to appropriate from available funds and transfer to the Municipal Building Maintenance Account, or what it will do in relation thereto. Board of Selectmen

Article 3. To see what sum the Town will vote to appropriate from available funds and transfer to the Police Department Maintenance Account, or what it will do in relation thereto. Board of Selectmen

Article 4. To see what sum the Town will vote to appropriate from available funds and transfer to the Fire Department Maintenance Account, or what it will do in relation thereto. Board of Selectmen

Article 5. To see what sum the Town will vote to appropriate from available funds for the purpose of reimbursing Police Officer Edward Hubbard for medical expenses and hospital charges resulting from injuries sustained in line of duty or what it will do in relation thereto. Board of Selectmen

Article 6. To see what sum the Town will vote to appropriate from available funds for the purpose of printing the report and incidental expenses of the Wage and Salary Classification Committee or what it will do in relation thereto. Board of Selectmen

Article 7. To see if the Town will vote to establish a Committee for the purpose of studying and resurveying the zoning by-law and building code with a view of making such recommendations to the Town to meet the present requirements of the Town, or what it will do in relation thereto. Board of Selectmen

Article 8. To see if the Town will vote to close all of the Town offices on Saturdays as authorized by Chapter 265 of the Acts of 1947, or what it will do in relation thereto. Board of Selectmen

Article 9. To see if the Town will vote to authorize the Board of Selectmen to sell upon such terms and conditions as they may determine a parcel of land owned by the Town and situated on the Northerly side of Willow Street and containing 28,120 square feet, or what it will do in relation thereto. Board of Selectmen

Article 10. To see if the Town will vote to amend the zoning by-law and zoning map by extending the Residence "A 2" District so as to include therein the area hereinafter described:

Beginning at a point 250 feet Northerly from the junction of Haverhill and Franklin Streets at the present Residence "A 2" District;

thence NORTHERLY by the center line of Haverhill Street 1750 feet more or less to a point opposite the Northerly boundary line of

land of Oscar W. Batchelder; thence turning and running NORTH-WESTERLY by a stone wall marking the Northerly line of land of said Batchelder 750 feet more or less to a drill hole at an angle in said stone wall;

thence turning and running WESTERLY 1500 feet more or less to a point 250 feet Easterly from the center line of Pearl Street at its most Northeasterly point and the present boundary line of the Residence "A 2" District;

thence SOUTHERLY and SOUTHEASTERLY by the existing boundary line of the present Residence "A 2" District paralleling Pearl and Franklin Streets to the point of beginning;

so that the above described area shall be rezoned and changed to and become part of the Residence "A 2" District. Board of Selectmen

Article 11. To see what sum the Town will vote to appropriate from available funds and transfer to the Town Clerk's expenses, or what it will do in relation thereto. Town Clerk

Article 12. To see what sum the town will vote to appropriate from available funds and transfer to General Aid, Aid to Dependent Children, and Old Age Assistance, or what it will do in relation thereto.

Board of Public Welfare

Article 13. To see what sum the Town will appropriate from available funds for the payment of a certain unpaid account due in 1946, under authority of Section 64 of Chapter 44 of the General Laws, and covering rent for quarters for an individual aided by the Town, or what it will do in relation thereto.

Board of Public Welfare

Article 14. To see if the Town will vote to accept the provisions of Chapter 615 of the Acts of 1947, being an Act to increase the amounts of pensions payable to certain former public employees who have been retired, or what it will do in relation thereto.

Contributory Retirement Board

Article 15. To see what sum the Town will appropriate from available funds and transfer to the Water Department, Maintenance, Operation and Construction Account or what it will do in relation thereto.

Board of Public Works

Article 16. To see what sum the Town will raise and appropriate by borrowing or otherwise for the purpose of laying water mains and for the development of additional wells including the suction mains or what it will do in relation thereto.

Board of Public Works

Article 17. To see what sum the Town will vote to appropriate from available funds and transfer to the snow and ice account, or what it will do in relation thereto.

Board of Public Works

Article 18. To see what sum the Town will vote to appropriate from available funds for the purpose of maintaining, repairing, purchasing and operating road machinery and equipment for the use of, and

under the direction of, the Board of Public Works, or what it will do in relation thereto. Board of Public Works

Article 19. To see what sum the Town will raise and appropriate by borrowing and from available funds or otherwise for the construction of sewers or what it will do in relation thereto. Board of Public Works

And you are directed to serve this Warrant by posting an attested copy thereof in at least three public places in each precinct of the Town, not less than seven days prior to October 27, 1947, the date set for the meeting in said Warrant, and to publish this Warrant in the Reading Chronicle, one day at least prior to said date.

Hereof fail not and make due return of this Warrant with your doings thereon, to the Town Clerk, at or before the time appointed for said meeting.

Given under our hands this fifteenth day of October, 1947.

KENNETH C. LATHAM
CHAS. E. WILKINSON
G. LAWRENCE ROBERTS

Selectmen of Reading

Officer's Return

Middlesex, ss.

Reading, Mass., October 25, 1947

By virtue of this warrant, I on October seventeenth, 1947 notified and warned the inhabitants of the Town of Reading, qualified to vote in elections and town affairs to meet in Security Hall, Woburn Street in said Reading, as the designated place of the four precincts of the town at the time specified in this warrant, by posting attested copies thereof in the following public places within said Town of Reading.

Precinct 1. Austin's Lunch Room, 17 Harnden Street; The Danforth Pharmacy, 1 Harnden Street; Central Fire Station.

Precinct 2. Masonic Temple Building; Lyceum Hall Building; M. F. Charles' Store, 610 Main Street; Boston & Maine Railroad Depot; Odd Fellows Building.

Precinct 3. Waterhouse's Neighborhood Store, 36 Mineral Street; Benny's Neighborhood Store, 168 Lowell Street; Engine No. 2 House, Woburn Street.

Precinct 4. Municipal Building; Zitzow's Neighborhood Store, 287 Lowell Street; McLaughlin's Neighborhood Store, 1051 Main Street.

And I caused an attested copy of this warrant to be published in the Reading Chronicle in the issue of October 23rd. The date of posting being more than seven days prior to the date set for the meeting in this warrant and the date of publication being more than one day prior to the date of meeting.

LEON G. BENT

Constable of Reading

SPECIAL TOWN MEETING

Security Hall

October 27, 1947

The meeting was called to order by the Moderator at the time specified in the Warrant.

The Warrant was partially read by the Town Clerk, when on motion of Charles E. Wilkinson it was voted to dispense with the further reading of the Warrant, except the Constable's Return, which was then read by the Town Clerk.

Article 1. Report and Recommendation of the Planning Board

An application was made to the Planning Board to hold a public hearing in accordance with the provisions of General Laws (Tercentenary Edition), Chapter 40, Section 27, with respect to re-zoning an area of approximately eighteen and four-tenths (18.4) acres of land located westerly of Haverhill Street and northerly of Franklin Street, now included in a Residence A3 District (requiring a minimum lot size of 40,000 square feet), so that said area would become a part of the Residence A2 District (requiring a minimum lot size of 15,000 square feet).

After consideration the Board decided to increase the area under consideration by including additional adjoining land of a similar character to the extent that the entire area would comprise approximately sixty (60) acres including the eighteen and four-tenths (18.4) acres owned by the applicant.

Consequently, after due notice in conformance with the provisions of General Laws, Chapter 40, Section 27, the Planning Board held a public hearing on October 20, 1947 on the matter of the proposed amendment to the Zoning By-law and Zoning Map. The area in question is described as follows:

Beginning at a point two hundred and fifty (250) feet northerly from the junction of Haverhill and Franklin Streets at the present Residence A2 District; thence northerly by the center line of Haverhill Street seventeen hundred and fifty (1750) feet more or less to a point opposite the northerly boundary line of land of Oscar W. Batchelder; thence turning and running northwesterly by a stone wall marking the northerly line of land of said Batchelder seven hundred and fifty (750) feet more or less to a drill hole at an angle in said stone wall; thence turning and running westerly fifteen hundred (1500) feet, more or less, to a point two hundred and fifty (250) feet easterly from the center line of Pearl Street at its most northeasterly point and the present boundary line of the Residence A2 District; thence southerly and southeasterly by the existing boundary line of the present Residence A2 District paralleling Pearl and Franklin Streets to the point of beginning

At the hearing the petitioner stated that he felt that the minimum

lot size required by the Zoning By-Law for a Residence A3 District, namely forty thousand (40,000) square feet, was excessive and discouraged prospective purchasers. He described the land as attractive for residential building purposes.

No persons appeared in opposition to the petition.

The Planning Board recommends that the Zoning By-laws and the Zoning Map be amended to include the above described land in the Residence A2 District.

PHILIP R. WHITE
A. LLOYD DAVID
GEORGE B. PEASE
WINTHROP D. PARKER

Planning Board

Article 1. On motion of John Devaney it was voted that the Town Clerk be and hereby is authorized and instructed to mail a copy of the Capital Budget Expenditures to each Town Meeting member, when available, cost of same to be taken from available funds.

Article 2. On motion of Charles E. Wilkinson it was voted that the sum of Two Hundred Fifty (\$250.00) Dollars be appropriated by transferring said sum from the unexpended balance in the Insurance Account to the Municipal Building Maintenance Account and the Town Accountant be and he hereby is authorized and empowered to transfer said sum to said account.

Article 3. On motion of Charles E. Wilkinson it was voted that the sum of One Thousand (\$1,000.00) Dollars be appropriated by transferring said sum from the unexpended balance in the Miscellaneous Expense Account to the Police Department Maintenance Account and the Town Accountant be and he hereby is authorized and empowered to transfer said sum to said account.

Article 4. On motion of G. Lawrence Roberts it was voted that the sum of Eight Thousand Seven Hundred Fifty (\$8,750.00) Dollars be appropriated by transferring said sum from the Surplus Revenue Account to the Fire Department Maintenance Account and the Town Accountant be and he hereby is authorized and empowered to transfer said sum to said account.

Article 5. On motion of G. Lawrence Roberts it was voted that the sum of Forty-nine and 15/100 (49.15) Dollars be appropriated by transferring said sum from the Overlay Reserve Account for the purpose of reimbursing Police Officer Edward Hubbard for medical expenses and hospital charges resulting from injuries sustained in line of duty and the

Town Accountant be and he hereby is authorized and empowered to transfer said sum to carry out the purpose of this vote.

Article 6. On motion of Charles E. Wilkinson it was voted that the sum of Two Hundred Fifty \$(250.00) Dollars be appropriated by transferring said sum from the unexpended balance in the Insurance Account for the purpose of printing the report and incidental expenses of the Wage and Salary Classification Committee and the Town Accountant be and he hereby is authorized and empowered to transfer said sum to carry out the purpose of this vote.

Article 7. On motion of G. Lawrence Roberts it was voted that a Committee of seven members be and hereby is established for the purpose of studying and resurveying the zoning by-law and building code with a view of making such recommendations to meet the present requirements of the Town, such Committee to consist of one member of the Board of Appeals, one member of the Board of Survey, the Building Inspector and four Town Meeting members at large to be appointed by the Moderator, the one member of the Board of Appeals and the one member of the Board of Survey to be chosen and designated by their respective boards; such Committee shall report the result of its study and resurvey at the next Annual Town Meeting.

Article 8. On motion of Charles E. Wilkinson it was voted that under authority of Chapter 265 of the Acts of 1947 such of the Town Offices may be closed on any or all Saturdays as may be determined from time to time by the respective Town Boards and Departments.

Article 9. On motion of G. Lawrence Roberts it was voted that the Board of Selectmen be and they hereby are authorized and empowered to sell upon such terms and conditions as they may determine a parcel of land owned by the Town and situated on the Northerly side of Willow Street, containing 28,120 square feet of land, and said Board of Selectmen are further authorized and empowered to execute for and in behalf of the Town such deeds and other instruments which may be necessary conveying said premises to the purchaser thereof.

Article 10. On motion of Charles E. Wilkinson it was voted that the zoning by-law and zoning map be and the same hereby is amended by extending the Residence "A2" District so as to include therein the area hereinafter described:

Beginning at a point 250 feet Northerly from the junction of Haverhill and Franklin Streets at the present Residence "A2" District;

thence NORTHERLY by center line of Haverhill Street 1750 feet more or less to a point opposite the Northerly boundary line of land of Oscar W. Batchelder;

thence turning and running NORTHWESTERLY by a stone wall marking the Northerly line of land of said Batchelder 750 feet more or less to a drill hole at an angle in said stone wall;

thence turning and running WESTERLY 1500 feet more or less to a point 250 feet Easterly from the center line of Pearl Street at its most Northeasterly point and the present boundary line of the Residence "A2" District;

thence SOUTHERLY and SOUTHEASTERLY by the existing boundary line of the present Residence "A2" District paralleling Pearl and Franklin Streets to the point of beginning; so that the above described area shall be rezoned and changed to and become part of the Residence "A2" District.

121 voted in the affirmative. 0 voted in the negative.

Article 11. On motion of Charles E. Wilkinson it was voted that the sum of Three Hundred (\$300.00) Dollars be appropriated by transferring said sum from the unexpended balance in the Insurance Account to the Town Clerk's Expense Account and the Town Accountant be and he hereby is authorized and empowered to transfer said sum to said account.

Article 12. On motion of Clarence J. Stalliday it was voted that the sum of Twelve Hundred (\$1200.00) Dollars be appropriated by transferring said sum from the unexpended balance in the Insurance Account as follows: Six Hundred (\$600.00) Dollars to Welfare General Aid Account and Six Hundred (\$600.00) Dollars to Aid to Dependent Children Account, and the Town Accountant be and he hereby is authorized and empowered to transfer said sum to said accounts.

Article 13. On motion of Joseph Knight it was voted that the sum of One Hundred Sixty (\$160.00) Dollars be appropriated under authority of section 64 of Chapter 44 of the General Laws by Transferring said sum from the Surplus Revenue Account for the payment of a certain unpaid account due in 1946, covering rent for quarters for an individual aided by the Town, and the Town Accountant be and he hereby is authorized and empowered to transfer said sum to carry out the purpose of this vote.

126 voted in the affirmative. 0 voted in the negative.

Article 14. On motion of Philip R. White it was voted that the provisions of Chapter 615 of the Acts of 1947, being an Act to increase the amounts of pensions payable to certain former public employees who have been retired, be and the same hereby are accepted.

127 voted in the affirmative. 0 voted in the negative.

Article 15. On motion of Harold W. Putnam it was voted that the sum of Twenty-six Hundred (\$2600.00) Dollars be appropriated by transferring said sum from the Water Department Available Surplus Account to the Water Department, Maintenance, Operation and Construction Salary Account and the Town Accountant be and he hereby is authorized to transfer said sum to said account.

Article 16. On motion of Harold W. Putnam it was voted that the sum of Fifteen Thousand (\$15,000.00) Dollars be raised and appropriated for the purpose of laying water mains and for the development of additional wells including the suction mains, of which sum Six Thousand (\$6,000.00) Dollars is for salaries and Nine Thousand (\$9,000.00) Dollars for materials and expenses, and to meet said appropriation, the Treasurer with the approval of the Selectmen be and he hereby is authorized to borrow Fifteen Thousand (\$15,000.00) Dollars under authority of the provisions of Chapter 405 of the Acts of 1889 and Chapter 44 of the General Laws and to issue bonds or notes of the Town therefor payable in not more than ten (10) years from the date thereof or at such earlier date as the Treasurer and Selectmen may determine, such bonds or notes shall bear on their face the words "Reading Water Loan."

123 voted in the affirmative. 0 voted in the negative.

Article 17. On motion of Harold W. Putnam it was voted that the sum of Fifteen Hundred (\$1500.00) Dollars be appropriated by transferring said sum from the Surplus Revenue Account to the Snow and Ice Account as follows: Twelve Hundred (\$1200.00) Dollars for salaries and Three Hundred (\$300.00) Dollars for expenses and the Town Accountant be and he hereby is authorized and instructed to transfer said sum to said account.

Article 18. On motion of Harold W. Putnam it was voted that the sum of Two Thousand (\$2,000.00) Dollars be appropriated by transferring said sum from the unexpended balance in the Road Machinery Account to the Road Machinery Fund for the maintenance, repair, purchase and operation of road machinery and equipment for the use of, and under the direction of the Board of Public Works and that the Town Accountant be and he hereby is authorized and empowered to transfer said sum to said account.

Article 19. On motion of Harold W. Putnam it was voted that the sum of Sixty-five Thousand (\$65,000.00) Dollars be raised and appropriated for the purpose of constructing sewers, Five Thousand (\$5,000.00) Dollars of which sum shall be re-appropriated by transferring same from the Surplus Revenue Account and the Town Accountant be and he hereby is authorized and instructed to transfer said sum of Five Thousand (\$5,000.00) Dollars to carry out the purpose of this vote, and to meet the balance of the appropriation of Sixty Thousand (\$60,000.00) Dollars the Treasurer with the approval of the Selectmen be and he hereby is authorized to borrow Sixty Thousand (\$60,000.00) Dollars under authority of Chapter 314 of the Acts of 1909 and Chapter 44 of the General Laws and to issue bonds or notes of the Town therefor, payable in not more than fifteen (15) years from the date thereof or at such earlier date as the Treasurer and Selectmen may determine, such bonds or notes shall bear on their face the words "Reading Sewerage

Loan, Acts of 1909."

121 voted in the affirmative. 0 voted in the negative.

Article 1. On motion of Charles E. Wilkinson it was voted that Article 1 be taken from the table.

On motion of Charles E. Wilkinson it was voted to indefinitely postpone Article 1.

On motion of Charles E. Wilkinson it was voted to adjourn, Sine Die.

GUY W. ELLISON

Town Clerk

TOWN WARRANT

(Seal)

The Commonwealth of Massachusetts

Middlesex, ss.

To either of the Constables of the Town of Reading, Greeting:

In the name of the Commonwealth you are hereby required to notify and warn the inhabitants of the Town of Reading qualified to vote in elections and town affairs to meet in Security Hall, Woburn Street in said Reading on **Monday, the Twenty-second Day of December, 1947** at eight o'clock in the evening, to act on the following articles:

Article 1. To hear and act on the reports of Town Officers and special committees and determine what instructions will be given Town Officers, and special committees.

Article 2. To see what sum the Town will appropriate from available funds for the repair of the traffic signal or beacon in Reading Square or what it will do in relation thereto. Board of Selectmen

Article 3. To see if the Town will vote to authorize the Board of Selectmen to sell or exchange upon such terms and conditions as they may determine the 1946 Ford cruising car of the Police Department; to see what disposition the Town will make of the proceeds thereof and to see what sum the Town will appropriate from available funds for the purchase of a new cruising car for the Police Department or what it will do in relation thereto. Board of Selectmen

Article 4. To see what sum the Town will vote to appropriate from available funds and transfer to the snow and ice account, or what it will do in relation thereto. Board of Public Works

Article 5. To see what sum the Town will raise and appropriate by borrowing or otherwise for the purpose of laying water mains of not less than six inches but less than sixteen inches in diameter and for the

development of additional wells including the suction mains or what it will do in relation thereto.

Board of Public Works

Article 6. To see what sum the Town will raise and appropriate by borrowing and from available funds or otherwise for the construction of sewers or what it will do in relation thereto.

Board of Public Works

And you are directed to serve this Warrant by posting an attested copy thereof in at least three public places in each Precinct of the town, not less than seven days prior to December 22, 1947, the date set for the meeting in said Warrant, and to publish this Warrant in the Reading Chronicle one day at least prior to said date.

Hereof fail not and make due return of this warrant with your doings thereon, to the Town Clerk at or before the time appointed for said meeting.

Given under our hands this twelfth day of December, A. D., 1947.

KENNETH C. LATHAM

CHAS. E. WILKINSON

G. LAWRENCE ROBERTS

Selectmen of Reading

Officer's Return

Middlesex, ss.

Reading, Mass., Dec. 19, 1947

By virtue of this warrant, I on December 15th, 1947 notified and warned the inhabitants of the town of Reading, qualified to vote in elections and town affairs to meet in the place and at the time specified in this warrant, by posting attested copies thereof in the following public places within the town of Reading.

Precinct 1. Austin's Lunch Room, 17 Harnden St.; The Danforth Pharmacy, 1 Harnden St.; Central Fire Station, Pleasant St.

Precinct 2. Masonic Temple Building; Lyceum Hall Building; M. F. Charles & Sons Store, 610 Main St.; Boston & Maine Railroad Depot; Odd Fellows Building.

Precinct 3. Waterhouse's Neighborhood Store, 36 Mineral St.; Benny's Neighborhood Store, 168 Lowell St.; Fire Station, No. 2, Woburn St.

Precinct 4. Municipal Building; McLaughlin's Neighborhood Store, 1051 Main St.; Zitzow's Neighborhood Store, 287 Lowell St.
the date of posting being seven days prior to December 22, 1947 the date set for the meeting in this warrant.

Also I caused an attested copy of this warrant to be published in the Reading Chronicle in the issue of December 18, 1947 the date of publication being more than one day prior to the date of said meeting.

LEON G. BENT

Constable of Reading

SPECIAL TOWN MEETING

Security Hall

December 22, 1947

The meeting was called to order by the Moderator at the time specified in the Warrant.

The Warrant was partially read by the Town Clerk, when on motion of Kenneth C. Latham it was voted to dispense with the further reading of the Warrant, except the Constable's Return, which was then read by the Town Clerk.

Article 1. The first action by the assembly was the official recognition of the worth of the late Otis B. Ruggles, former selectman and, at the time of his passing, a member of the delegation from Precinct 4.

Selectman Latham in a brief talk characterized Mr. Ruggles as "A glowing example of a public spirited citizen." In memory of Mr. Ruggles the assembly stood for a few moments of silent tribute.

Article 1. Selectman Kenneth C. Latham informed the town meeting members that settlement of the estate of Dr. Ethel E. Grant was at hand and the town would be called upon to express an opinion on the provisions of the legacy to the town. By a show of hands the members indicated that they would prefer to see the memorial take the form of a swimming pool than a decorative fountain.

Under the terms of the will of the late Dr. Grant the town can have a decorative fountain on the Common or a swimming pool at Memorial Park. Selectman Latham explained that it may not be possible to carry either of these provisions out to the letter and that the probate court might be asked to allow alterations in the conditions. If this cannot be done and the town rejects the bequest for any reason then the money reverts to specified charities.

Dr. Grant passed away in April, 1943 and her will gives from the residue of her estate an amount probably sufficient to provide either of these memorials.

It has been stated that there might be a legal barrier to accepting either proposal and that there might be a desire to have a swimming pool at some place other than Memorial Park. It has also been pointed out heretofore that even if the pool could be built at no expense to the town there might be objection to the extra expense of maintenance of such a facility.

Mr. Latham stated that he was bringing the matter to the attention of the town meeting members now because they might want to think about it prior to taking official action later.

Article 2. On motion of Charles E. Wilkinson it was voted that the sum of Three Hundred Seventy-five (\$375.00) Dollars be appro-

appropriated by transferring said sum from the unexpended balance in the Old Age Assistance Account for the repair of the Traffic Signal or Beacon in Reading Square and the Town Accountant be and he hereby is authorized and empowered to transfer said sum to carry out the purpose of this vote.

Article 3. On motion of G. Lawrence Roberts it was voted that the Board of Selectmen be and they hereby are authorized and empowered to sell or exchange upon such terms and conditions as they may determine, the 1946 Ford cruising car of the Police Department and that the sum of Six Hundred (\$600.00) Dollars together with the proceeds from such sale or exchange be appropriated, by transferring said sum from the unexpended balance in the Old Age Assistance Account, for the purchase of a new cruising car for the Police Department and the Town Accountant be and he hereby is authorized and empowered to transfer said sum to carry out the purpose of this vote.

Article 4. On motion of Harold W. Putnam it was voted that the sum of Four Thousand (\$4,000.00) Dollars be appropriated by transferring said sum from the Surplus Revenue Account to the Snow and Ice Account as follows: Two Thousand Two Hundred (\$2,200.00) Dollars for Salaries and One Thousand Eight Hundred (\$1,800.00) Dollars for expenses and the Town Accountant be and he hereby is authorized and instructed to transfer said sum to said account.

Article 5. On motion of Harold W. Putnam it was voted that the sum of Fifteen Thousand (\$15,000.00) Dollars be raised and appropriated for the purpose of laying Water Mains of not less than six (6) inches but less than sixteen (16) inches in diameter and for the development of additional Wells including Suction Mains of which sum Six Thousand (\$6,000.00) Dollars is for Salaries and Nine Thousand (\$9,000.00) Dollars for Materials and Expenses, and to meet said appropriation the Treasurer, with the approval of the Selectmen be and he hereby is authorized to borrow Fifteen Thousand (\$15,000.00) Dollars under authority of Chapter 44 of the General Laws and to issue bonds or notes of the Town therefor, payable in not more than (10) years from the date thereof or at such earlier date as the Treasurer and Selectmen may determine.

97 voted in the affirmative. 0 voted in the negative.

Article 6. On motion of Harold W. Putnam it was voted that the sum of Sixty-five Thousand (\$65,000.00) Dollars be raised and appropriated for the purpose of constructing sewers, Five Thousand (\$5,000.00) Dollars of which sum shall be appropriated by transferring same from the Surplus Revenue Account and the Town Accountant be and he hereby is authorized and instructed to transfer said sum of Five Thousand (\$5,000.00) Dollars to carry out the purpose of this vote, and to

meet the balance of Sixty Thousand (\$60,000.00) Dollars of the appropriation, the Treasurer with the approval of the Selectmen be and he hereby is authorized to borrow Sixty Thousand (\$60,000.00) Dollars under authority of Chapter 44 of the General Laws and to issue bonds or notes of the Town therefor, payable in not more than fifteen (15) years from the date thereof or at such earlier date as the Treasurer and Selectmen may determine.

97 voted in the affirmative. 0 voted in the negative.

Article 1. On motion of Kenneth C. Latham it was voted that Article 1 be taken from the table.

Article 1. On motion of Kenneth C. Latham it was voted to indefinitely postpone Article 1.

On motion of Kenneth C. Latham it was voted to adjourn, Sine Die.

SELECTMEN'S REPORT

The annual report of the Board of Selectmen for the year ending December 31, 1947, is hereby submitted.

On March 3, 1947, at an adjourned meeting, the Board organized as follows:

Kenneth C. Latham, Chairman
Charles E. Wilkinson, Secretary
G. Lawrence Roberts
Mildred J. Gray, Clerk

Monday evening has been the regular meeting night of the Board with the exception of July and August when meetings were held every other week and we do not see but that the Town went along just as well as when we met every week. Extra meetings were held when occasion demanded.

The method started last year, of asking the citizens to make appointments with the Clerk of the Board, to see the Selectmen, worked out so successfully we have followed the same procedure during 1947. By so doing many citizens were kept from cooling their heels and getting hot under the collar while waiting for the Board to complete its business with others.

The agenda of our meetings has been printed in the Chronicle each week. The various departments under the jurisdiction of the Board have made reports which appear on other pages, so we will comment briefly on one or two highlights of the year. The report will be short as we doubt if over ten citizens ever read this report.

The Town Parking Area has at last become a reality and was opened in October, 1947. It has been marked off so that it will accommodate 70 cars. This area would not have been possible but for the cooperation and donations of several merchants whose lands or business border the Parking Area. The Capitol Realty, Inc. gave outright 7,650 square feet of land. Aaron A. Levin deeded a fifteen foot right of way from Woburn Street. The Masonic Temple Corporation has given a fifteen foot right of way from Haven Street, good for ten years. Mr. Jacob Rabinovitz of the Economy Grocery Stores contributed \$500.00 cash. Mrs. Laura S. Gordon bought the bowling alley and the ground on which it stood, contributing the same to the Town with the understanding the Town would erect a fence separating Mrs. Gordon's property from the Parking Area. Mrs. Gordon's contribution represented approximately \$10,000.00 But for the above contributions, it is doubtful if the Town could have finished this Parking Area for some time. The Board, as well as the Town, owes a debt of gratitude to Mr. Walter M. Fowler, who acted as Agent for the Board over a period of several years,

making arrangements to bring the Parking Area to a successful conclusion.

The Board is happy to announce that during the summer of 1947, the Boston & Maine Railroad installed automatic gates at the Willow Street crossing thus removing a dangerous spot.

Your Board wishes to thank the Auxiliary Fire Department and Auxiliary Police Department for the excellent help they gave on several occasions during the past year, especially at the time of the forest fires in the Fall. In that respect the Board also wishes to thank the Red Cross, Salvation Army, local organizations, telephone operators and many citizens who gave their services during this hazardous period.

We appreciate the co-operation and friendly spirit of the other Departments, Boards, Committees and general public.

Respectfully submitted,

CHARLES E. WILKINSON, Secretary

Board of Selectmen

REPORT OF THE PLANNING BOARD

The Planning Board was instrumental in securing the filing of a bill in the General Court changing the boundary line between Reading and Lynnfield. This bill was enacted and the line has been changed. Substantially the change consists of straightening the old line in the so-called cedar swamp on the northerly side of the town. As a result Lynnfield acquires a small area that formerly was in Reading and Reading acquires a somewhat larger area from Lynnfield. It is expected that perambulation of the town bounds in this swampy area will be simplified in the future.

During the year the Board has considered several proposals for rezoning areas in the town. A public hearing was held on the application of a resident for rezoning a sizeable area on the westerly side of Haverhill Street. After the hearing the Board recommended that the lot sizes in this area be reduced from 40,000 square feet to 15,000 square feet. An article to amend the Zoning By-Laws was placed in the warrant for a special Town Meeting in October, 1947 on petition of the required number of voters and the amendment was passed in accordance with the Planning Board's report.

A number of alleged violations of the Zoning By-Laws have come to the attention of members of the Board and in several instances complaints have been made to the Board by citizens that the By-Law

was being violated. The Board has advised the Building Inspector, who is charged with enforcing the law under the direction of the Board of Selectmen, of all these alleged violations. Conferences have been had with both the Selectmen and also with the Building Inspector concerning them. The Board has consistently urged that the By-Law be enforced.

Members of the Board have attended numerous hearings held by the Board of Appeal during the year on applications for variation of the Zoning Law. The Board has opposed many of these applications and in a few instances has approved of them. Members of the Board have also attended several hearings held by the Board of Survey on proposed subdivisions, and have offered advice with respect to them.

As in past years the Board of Selectmen have asked the Planning Board for its recommendations when offers have been received for the town owned property. The Board has made a recommendation in every instance.

At the instance of some of the editors of the local papers in the several cities and towns which will be crossed by the proposed new Route 128 several meetings were called to consider methods to promote the construction of the road. The Board has attended two of those meetings. A committee made up of one representative from each of the towns and cities was created. The chairman of the Planning Board has served on that committee. This committee has held a number of meetings and has met with the Governor and with the Commissioner of Public Works to discuss the construction of the Route

Members of the Planning Board attended a Public hearing held by the Commissioner of Public Works on the proposed lay out of the Route from where new construction now ends in Lynnfield to Route 28 near the Reading-Stoneham town line. The layout as established will cross the swamp area northwesterly of Lake Quannapowitt, pass on the Wakefield-Stoneham side of Bear Hill and cross Route 28 just northerly of the Reading-Stoneham Town line. The Planning Board is pleased to report that this is the location advocated by the Planning Board for many years.

Mr. David and Mr. Pease have served as the Planning Board's representatives on the Capital Expenditures Planning Committee.

Respectfully submitted,

PHILIP R. WHITE, Chairman
A. LLOYD DAVID, Secretary
WINTHROP D. PARKER
GEORGE B. PEASE
WALTER D. BERRY

SUPERINTENDENT'S REPORT — 1947

To the Board of Cemetery Trustees,
Town of Reading, Mass.
Gentlemen:

The Superintendent's Report on the operation of the two Town Cemeteries, Laurel Hill and Forest Glen, for the fiscal year ending December 31, 1947 is herewith submitted.

While the normal functions of the Department, including interments, maintenance and snow removal to provide accessibility to the lots and graves, were carried on throughout the year, other tasks to improve and further develop both Cemeteries were accomplished.

The Statistics for the calendar year of 1947 are as follows:

	Laurel Hill	Forest Glen	Total
Interments	58	25	83
Foundations:			
Monuments	9	10	19
Markers	22	6	28
Lots Repaired	4	0	4
Graves Repaired	49	1	50
Winter Graves Repaired	17	6	23
Cement Crypts Used	19	13	32
Cement Vaults Used	39	12	51
Lots Sold:			
8 Grave	0	1	1
6 Grave	0	3	3
4 Grave	0	7	7
2 Grave	1	10	11
Single Graves	3	3	6
Baby Graves	3	0	3

Three single graves and five old lots were put in Perpetual Care and one old lot had an additional amount added during 1947, in Laurel Hill Cemetery.

Vandalism again left its mark on Laurel Hill Cemetery during the weekend of September 13th and 14th. Twenty-two monuments were displaced from their foundations and one marble slab was broken. To repair the damage it was necessary to engage the services of a Monumental Firm at a considerable expense to the Cemetery Department.

On August 25, 1947 a Dodge 1½ ton Truck with a 2 yard dump body was placed in commission. This was authorized by the 1947 Annual Town Meeting and replaces a 1929 Ford Truck, which was sold.

Laurel Hill Cemetery Improvements

A progressive tree surgery program was inaugurated this year, and by the able assistance of the Tree Department, seventy large shade trees were pruned and trimmed and two poplars were removed. It is the intent to carry on this work from year to year.

On Pine Avenue a large leaching basin was constructed and 100 lineal feet of curbing so placed as to check the surface runoff from draining onto Lots 259, 262 and 263. The grade of these lots was then raised by filling in, loaming and reseeded, thus eliminating a very bad depression.

At the upper level of the service yard, on the concrete foundation completed during the previous year, two fireproof stalls, to facilitate the garaging of the two Cemetery trucks, are under construction. Funds available allowed the near completion of one, so as to permit its occupancy.

Forest Glen Cemetery Improvements

This Department, when the W.P.A. went out of existence, inherited the unfinished project of excavating, casting over, the removal of large stones, boulders and stumps, grading, loaming and seeding an area of several acres in preparation for laying out into lots and graves.

During this fiscal year the brush was cleared from the area, the stones and boulders segregated, and the casting piles leveled to a preliminary sub-grade. Over this area a cross-section survey was made in order to study its development. Further development is planned for 1948.

The financial statement will appear in the report of the Town Accountant.

Respectfully submitted,

HAROLD F. DAVIS,

Superintendent

REPORT OF THE BOARD OF CEMETERY TRUSTEES

The Report of the Superintendent as submitted by him is hereby approved by the Board of Cemetery Trustees and constitutes its Report to the Town.

FRED L. NUTTER, Chairman
JAMES W. FAIRCHILD, Secretary
HARRY C. BARR
EDOUARD N. DUBE
WILLIAM P. PIERPONT

Board of Cemetery Trustees

REPORT OF CUSTODIAN OF SOLDIERS' and SAILORS' GRAVES

The Honorable Board of Selectmen
Town of Reading
Massachusetts

Gentlemen :

I herewith submit my report as Custodian of Soldiers' and Sailors' graves for the Town of Reading.

Four Veteran graves were repaired in Laurel Hill Cemetery and the Veteran Plots in Laurel Hill and Forest Glen Cemeteries were taken care of during 1947, besides the usual care of all Veteran graves.

Appropriation		\$	800.00
Pay Roll	\$	523.64	
Repairs on Veteran Graves		16.00	
Care of Veteran Plot, L. Hill		60.36	
Care of Veteran Plot, F. Glen		200.00	
		<hr/>	
	\$	800.00	\$ 800.00

There was one Spanish War and World War I Veteran, four World War I Veterans, and two World War II Veterans interred during 1947, as follows :

Spanish War and World War I

Richard A. Skane, Lot No. 1081½, Laurel Hill Cemetery, died May 27, 1947, buried May 31, 1947.

World War I

Gardiner I. Byam, Lot No. 1180, Laurel Hill Cemetery, died Feb. 12, 1947, buried Feb. 15, 1947.

Ellis J. Wilson, Lot No. 406, Forest Glen Cemetery, died May 4, 1947, buried May 7, 1947.

Melvin C. Lane, Lot No. 389, Forest Glen Cemetery, died July 13, 1947, buried July 17, 1947.

Otis B. Ruggles, Lot No. 670, Laurel Hill Cemetery, died Dec. 3, 1947, buried Dec. 6, 1947.

World War II

Chester M. Wooldridge, Grave No. 36, Veteran Plot, Forest Glen Cemetery, died Jan. 3, 1947, buried Mar. 18, 1947.

Clark S. Robinson, Lot No. 89A, Forest Glen Cemetery, died May 23, 1947, buried May 26, 1947.

There are 422 Veterans buried in Laurel Hill Cemetery and 26 Veterans in Forest Glen, and the number increases every year. I recommend that the amount appropriated for 1948 be increased to \$1,000.00 to adequately cover the necessary care of Veterans' graves and lots.

Respectfully submitted,

HARRY A. TURNER

REPORT OF VETERANS' BENEFIT AGENT

February 9, 1948

To the Honorable Board of Selectmen,
Reading, Massachusetts
Gentlemen:

Your Agent of Veterans' Benefits respectfully submits his annual report.

We have had occasion to assist 35 cases, comprising 106 persons in general aid under the first year of a new setup of the Chapter 584 of the Acts of 1946.

We have also conducted the office of Veterans' Services to good advantage of those seeking information in State and Federal benefits.

We have worked in close harmony with other agencies and appreciate their help.

Yours very truly,

CHARLES W. H. SMITH,

Agent

REPORT OF WELFARE AGENT

To the Board of Public Welfare:

I submit the following report as Welfare Agent and Director of Old Age Assistance for the year 1947:

The pattern of our operations during 1947 has followed closely that of the preceding year as to the number of classification of cases seeking assistance through this department. Employment conditions have remained favorable, with some exceptions during the latter months of the year where family assistance under General Aid was required. Old Age Assistance maintained a case load level comparable with that for the past four or five years. Expenditures have arisen substantially, however, as a direct result of increase in the cost of living necessities. Such costs have risen 10% during 1947 over 1946, and approximately 60% since 1941. These rising living expenses are reflected in the mandatory budget requirements placed upon us by state authority, the more important of these being increases introduced in May and November, 1946, and again in September of 1947.

For record, our case load figures for 1947 were: General Aid, 39 cases with 93 persons; Aid to Dependent Children, 20 cases with 79 persons; Old Age Assistance, 271 cases, one person each.

It is not the function of a welfare agent to discuss policies in relief matters in a report of this kind, nor to comment on the laws, rules and regulations given him for execution. His job is to get things done in the legally sanctioned manner, to protect the proper rights and privileges of the recipient, and to safeguard the financial and social interests of the town that employs him. It does not seem amiss, however, that any major trend or development which is observed in the course of his work be brought to notice. Attention is necessarily drawn to the startling changes in Old Age Assistance during the past decade. The flat statement in this respect is that the expenditure per case has doubled during the past eight years. About 60% of this increase may be charged directly to the sharp upward trend in the cost of the necessities of life upon which the mandatory budget figures are based. A further factor is legislation granting far more generous exemption to children in the matter of liability for the support of parents who are eligible for Old Age Assistance. Medical costs, also, which constitute a substantial item in Old Age expense, have tripled during the period under consideration.

A brief schedule may clarify the point mentioned:

	1937	1947	
General Aid	\$64,000	\$19,000	\$45,000 Decrease
Aid Dep. Children	18,000	21,000	3,000 Increase
Old Age Assistance	58,000	150,000	92,000 Increase

The Old Age case load during this time has remained within a swing of forty, fluctuating between 230 and 270, so it is evident that the increase of total expenditure is due to cost per case rather than to any large influx of recipients. Everybody agrees that the needs of the aged who are without resources should have the most considerate thought but, for the better protection of the elderly people themselves, some concern should be given to the possibility of allowing any major relief program to expend beyond a point where the contributing citizen is "able to pay", thus bringing about a collapse of the entire structure, with consequent loss to the old people of the distinct advantages they have gained during the past decade and a half.

Unlike General Aid and Aid to Dependent Children, the category of Old Age Assistance does not respond to improved employment conditions. An Old Age Assistance case load as of any given time will ordinarily diminish only in two ways, by decease or by removal to another city or town. Not more than one case out of a hundred goes off Old Age Assistance because of unexpected resources, such as a legacy, the sale of real estate, or some other unusual circumstance. In the meantime there is the constant acquisition of new applications to keep the case load up and, as appearing from present tendencies, to increase it.

It is therefore obvious that any general increase in monies expended for Old Age Assistance is, in effect, a permanent increase.

Beyond the dead-line of "ability to pay" it is equally obvious that danger to the whole system of assistance to the aged is real.

The item of local tax cost seems important enough to warrant a continuance of the short statement which has been shown in our reports for the last several years, this schedule for 1947 being in round figures as follows:

Total expenditure, all forms of relief administered by this department, including cost of administration and maintenance of office building	\$ 206,000
---------------------------------------------------------------------------------------------------------------------------------------------------	------------

Total received through federal grants, state payments from other cities and towns, and from refunds, collections and recoveries	147,000
---------------------------------------------------------------------------------------------------------------------------------------	---------

Net local tax levy cost	\$ 59,000
-------------------------------	-----------

Respectfully submitted

EDWARD E. HARNDEN

Welfare Agent and Director of O.A.A.

REPORT OF THE MIDDLESEX COUNTY EXTENSION SERVICE

Report to the Town of Reading, Mass.

The year 1947 still called for an all-out food production by farmers, as well as food conservation by homemakers. For this reason, efforts of the Extension Service during the year were largely on these factors, the production and conservation of food.

Commercial poultry is the main agricultural interest in Reading along with commercial vegetables and home gardens. With the commercial poultrymen, service has been rendered largely through farm visits, meetings of the poultry association and monthly letters. Disease control, feeding and management have been the main problems.

The main project of interest to homemakers has been home furnishings and the work has been developed under the leadership of Mrs. Annie Poore, town homemaking chairman.

Nine boys' and girls' 4-H clubs were organized during the year — four in clothing and one each in home furnishing, knitting and canning, with two in agriculture. Leaders for the year have been Mrs. Walter E. Connor, Mrs. Edna Turner, Shirley Nelson, Mrs. Howard Crowe, Miss Lois Conn. Irene Landers and Jean Symonds were chosen to represent the county at the State Dress Revue at the University of Massachusetts. Ernest Durb was chosen to represent the county in the Poultry Judging Contest at the Boston Poultry Show, Eastern States' Exposition and State 4-H Boys Day at Amherst. Wendell Nelson was awarded a prize by the Massachusetts Society for Promoting Agriculture for his fine work in the Sheep Club. Kenneth Hickman and Ernest Durb were awarded medals for their outstanding poultry club work.

At the end of the season, the boys and girls of Reading put on a very fine exhibit for their year's work, along with an interesting program. Miss Lois Connor deserves special mention, not only for her work as a leader in Reading, but for the contribution she made to the success of the county 4-H Club Camp in Ashby.

REPORT OF TOWN COUNSEL

To the Law Committee of the Town of Reading:

I submit my report as Town Counsel for the year 1947 as follows:

An Equity Suit was brought in behalf of the Town in the Middlesex Superior Court to restrain certain individuals from removing sand and gravel from land on Haverhill Street and after trial of the case the Court issued a permanent injunction preventing the further removal of sand and gravel from this location.

The action commenced in the Middlesex Superior Court against the Board of Appeal affecting the use under the Zoning By-law of a certain parcel of real estate located at the corner of Salem and Harrison Streets has been continued generally on the Court docket with the expectation that the Appellant will withdraw the case from the further

consideration of the Court.

Four claims have been made against the Town for alleged damages sustained as the result of accidents on the highway. Two claims have been settled and the other two have not been made the subject of litigation. There are still pending three cases in the Court.

Seven cases have been commenced in the Land Court for the foreclosure of tax liens. One case was disposed of by payment of the taxes and costs to the Town, in two of the cases the premises will be redeemed by the taxpayer and the remaining foreclosures have been continued on the docket and will be disposed of in the near future. Two cases were commenced during the year before the Appellate Tax Board involving assessments of real estate and the same have been continued on the docket awaiting trial.

The remaining parcel of land for the proposed new elementary school building on Summer Avenue has been acquired by the Town.

Titles have been examined to four parcels of land acquired by the Town for the proposed new Senior High School building in Birch Meadow and the taking by right of eminent domain has been prepared and recorded in the Middlesex South District Registry of Deeds, thereby acquiring the land as provided in the vote of the Town adopted at the Annual Meeting of the current year. A contract was prepared with an architect relating to the addition to the Public Library building in connection with the Town's application for Federal aid for advance planning for non-Federal works. Under my supervision the contract and other documents relating to the addition of the Municipal garage were completed. Also contracts, specifications, performance bonds, and other contract documents were prepared for the School Department for the painting of the school house buildings and for the installation of fire-escapes on the Senior High School building.

Claims were filed in the Middlesex Probate Court in behalf of the Welfare Department seeking reimbursement of funds expended by the Town which resulted in the recovery of the sum of \$816.54.

As provided by the regulations of the Town I have performed every professional act required by me in performance of the duties of my office including in part appearances in Court and hearings before Boards or Commissions, prosecution of claims in behalf of the Town, opinions to all Town Boards, investigation of claims against the Town, drafting release and redemption deeds, licenses for transportation of passengers for hire, amendments to traffic regulations, protest of advertising signs, discharge of Old Age Assistance bonds and mortgages, licenses, permits, by-laws, articles and motions for Town Meetings and such other legal documents and matters referred to me for attention.

Respectfully submitted,

SAMUEL H. DAVIS,

Town Counsel

REPORT OF INSPECTOR OF ANIMALS

To the Honorable Board of Selectmen,
Town of Reading, Massachusetts
Gentlemen:

I hereby submit my report as Inspector of Animals for the year January 1, 1947 to January 1, 1948.

Fifty-four dogs were quarantined for inflicting personal injuries, and the same number released after the period of quarantine had expired. Three additional dog bites reported were not located until the quarantine period would have elapsed. However, a physical examination indicated the dogs to be in perfect health. Another dog bite inflicted on a Reading citizen was traced to an out of town dog.

Four more dogs were quarantined for a period of twenty-one to ninety days as the result of illegal entry into Massachusetts.

Any dog entering the Commonwealth must be accompanied by a health certificate issued by a Veterinarian at the point of origin. Failure to provide this will result in the dog being placed in quarantine for a period of ninety days or twenty-one days upon proof that the dog was vaccinated versus Rabies within six months of entry.

The number of dogs quarantined this year practically tripled those of 1946. The number of Rabid dogs in other states is still at a high level. Within a moment's notice we could have an epidemic of Rabies in the Town of Reading. Thus, kindly refrain from handling strange dogs.

The annual inspection of all livestock in the town showed there to be 144 neat cattle, and 436 swine, a decrease over last year. There were 38 horses, 41 sheep, and 43 goats, an increase over 1946.

There were no Contagious Infectious Diseases noted.

Respectfully submitted,
GARDINER A. LESTER, D.V.M.,
Inspector of Animals

REPORT OF MOTH SUPERINTENDENT

To the Honorable Board of Selectmen:
Gentlemen:

I submit my report as Moth Superintendent for the year 1947.

There is a marked improvement in the Gypsy Moth situation. Using D.D.T. the new insecticide we were able to start spraying about a week earlier than we could with Arsenate of Lead. D.D.T. is a contact as well as a stomach poison and it is only necessary for the caterpillars to crawl over the crystals to kill them. This increase in our spraying time enabled us to spray about twenty-five acres of badly

infested woodland in the northern section of the town. A check of this area in the fall showed almost one hundred percent elimination of the Gypsy Moth.

The authorities at the State University do not recommend the use of D.D.T. on fruit trees until after the blossoms have fallen. The use of D.D.T. before the blossoms drop will destroy the bees and other pollinating agents. For this reason it is still necessary to use Arsenate of Lead for much of the spraying on private property.

I take this opportunity to thank the Board of Selectmen and all others who have assisted me in the past year.

Respectfully submitted,

MAURICE H. DONEGAN,

Moth Superintendent

REPORT OF CHIEF OF POLICE

To the Honorable Board of Selectmen
Reading, Mass.

Gentlemen:

I herewith submit the annual report of the Police Department of the Town of Reading for the year ending December 31, 1947.

Arrests for the Year 1947

Males, 428; Females, 13; Adults, 413; Minors, 28; Residents, 165; Non-Residents, 276; American Born, 377; Foreign Born, 64; Total Arrests, 441.

Causes of Arrests

Drunkenness, 181; Assault and Battery, 6; Larceny, 12; Breaking and Entering in night time, 1; Breaking and Entering in day time, 1; Setting fires, 1; Carrying concealed weapons, 1; Delinquency, 3; Non-Payment of fines, 1; Non-Support, 15; A.W.O.L., 1; Illegitimacy, 3; Suspicion of Larceny, 1; Out of town warrants, 2; Gross Lewdness, 1; Insane, 3; Rape and Adultery, 1.

Automobile Violations

Speeding, 127; Operating under the influence of liquor, 31, leaving scene of accident after causing property damage, 6; operating so as to endanger, 7; Operating without license, 5; Driving after license expired, 3; Failing to stop for signal, 12; Refusing to stop when signaled by Officer, 2; Allowing improper person to operate car, 1; Driving after license expired, 1; no stickers, 12.

Disposition of Cases in Court

Released, 141; Fined, 155; Held for Grand Jury, 3; Turned over to out of town Departments, 26; Found not guilty, 28; Guilty on File, 35; House of Correction sentences, Suspended, 12; Dismissed, 2; Probation, 9; on File, 7; Returned to State Farm, 2; House of Correction, 3; Worcester State Hospital, 3; Returned to Bedford Hospital, 1; Continued for further disposition, 14. Total cases disposed of, 441.

Amounts of Fines Imposed by Courts

75 Fines at \$5.00, \$375.00; 35 Fines at \$10, \$350.00; 12 Fines at \$15.00, \$180.00; 6 Fines at \$20.00, \$120.00; 7 Fines at \$25.00, \$175.00; 6 Fines at \$35.00, \$210.00; 12 Fines at \$50.00, \$600.00; 1 Fine at \$6.00; 1 Fine at \$100.00. Amount of Fines, \$2,170.00

Values of Properties Stolen and Recovered

Valuation of Properties stolen in Reading	\$ 10,913.55
Values of Properties recovered in Reading	8,740.00
Values of Properties recovered for out of town Departments	215.00
Total value of Properties recovered during 1947	8,955.00

Miscellaneous Services Rendered by The Police Department in 1947

A wide variety of incidental services which occupy much of the Department's time and attention is summarized as follows:

Doors found open, 176; Windows found open, 8; Windows found broken, 12; Summonses delivered, 234; Messages delivered, 168; Teletype messages sent out by this Department, 70; Teletype messages sent out for other Departments, 50; Department of Public Works notified, 40; State Department of Public Works notified, 4; Persons reported missing, 11; Lost children reported and returned to their homes, 26; Wires reported down, 3; Wires reported burning in trees, 5; Poles reported broken, 6; Trees reported down, 7; Fire Department notified, 18; Out of town cars reported stolen and checked, 28; Ambulance requests for out of town departments, 3; Family trouble cases reported and investigated, 40; Neighbor trouble reported and investigated, 9; Noisy parties investigated, 11; Suicide attempts reported and investigated, 3; Reports of children annoying and investigated, 52; Reports of children playing in empty houses and houses under construction investigated, 10; Children stopped playing ball in streets, 34; Reports of children throwing stones and snowballs at cars investigated, 12; Runaway children found and returned to their parents, 2; Dogs shot by Officers, 6; Dogs reported killed or injured, 18; Reports of persons bitten by dogs, 7; Report of barking dogs annoying, 15; Bicycles recovered, 21; Bicycles reported stolen, 11; Investigations of persons shooting, 13; Reports of excessive noises investigated, 11; Bad odors reported and investigated, 7; Transients put up for night, 37; Persons brought to Station for questioning, 11; Automobiles reported stolen, and recovered,

8; Assistance rendered sick persons, 56; Lanterns placed, 8; Sick signs placed, 2; Water pipes found broken, 3; Reports of railroad gates down and investigated, 1; Cattle reported wandering and returned to owners, 3; Skunks shot, 2; Rabbits shot, 1; Trucks stopped for overloading, 2; Dog Officer notified, 21; Escorts, military and otherwise, 7; Lost properties recovered and return to owners, 18; Vacant properties checked for security, 172; Horseback reported and investigated, 5; Special guard duty for U. S. Mail, 83; Miscellaneous cases investigated, 139; Medical Examiner called, 4; Selling vegetables without permit, 1; Dead bodies cared for, 1; Street lights reported out, 25; Reports of telephones off hook investigated, 6; Reports of peepers investigated, 10; Reports of Prowlers investigated, 61; Reports of parked cars investigated, 67; Cars ordered towed off streets, 4; Guns taken away, 6; Night lights reported out, 5; Bank lights reported out and proper authorities notified, 2; Bank Vault Alarm ringing and investigated, 2; Report of the use of firecrackers investigated, 2; Manhole covers reported off, 1; Miscellaneous permits issued by the Chief for Sunday work and soliciting, 12; All fires covered by our cruisers.

Automobile Accidents

Total number of automobile accidents reported for the year 1947, 457; Fatal accidents, 4; Accidents involving damage to property, 239; Accidents involving personal injuries, 106; Accidents involving taking persons to doctors for treatment, 32; Accidents involving taking persons to hospitals, 14; Accidents involving children, 8; Accidents involving dogs struck or killed, 57.

Mileage of Various Automobile Units

Plymouth Cruiser No. 1 travelled 32,729 miles. Cruiser No. 2, Ford travelled 35,131 miles to Dec. 12 when it was replaced by a 1948 Ford which travelled 193 miles. The Ambulance travelled 3,935 miles. The Chief's Packard travelled 2,882 miles. Total mileage for the four units, 74,870 miles.

Bicycle Registration

Interest in Bicycle registration continues, 315 registration certificates were issued in 1947, making a total since March 9, 1942 of 2490. The amount of \$80.25 was received and turned over to the Town Treasurer.

Police Ambulance Records

During the year 1947, the Police made the following trips with the Ambulance:

Winchester Hospital, 62; Mass. General Hospital, 15; Malden City Hospital 2; New England Sanitarium, 9; Choate Memorial Hospital, 23; Melrose Hospital, 9; Haverhill Hospital, 1; Chelsea Naval Hospital, 1; St. John's Hospital, 19; Cambridge City Hospital, 1; Chelsea Soldiers' Home, 2; Robert Brigham Hospital, 2; Mass. Memorial Hospital, 1;

Worcester State Hospital, 3; Malden Doctors' Hospital, 1; Osteopathic Hospital, 3; Met. Hospital, Waltham, 1; Cloverdale Hospital, Lawrence, 1; Veterans' Hospital, West Roxbury, 4; Peter Bent Brigham Hospital, 2; Lawrence Memorial Hospital, 2; Crocket Sanitarium, Lowell, 1; Mercy Hospital, Portland, 1; Slattery Rest Home, Lowell, 1; Lawrence General Hospital, 1; Otis General Hospital, Cambridge, 3; Doctors' Hospital, Boston, 1; New England Baptist Hospital, 1; Holy Ghost Hospital, Cambridge, 1; MacLean, Hospital, 1; St. Elizabeth Hospital, 1; St. Margaret's Hospital, Dorchester, 1; Cushing Hospital, Framingham, 2; Town Limits, 18; Stoneham Nursing Home, 1; Boston Lying-In Hospital, 1; Wellesley, 1; Andover Academy, 1; Called out but not needed, 9; Total number of trips made by the Ambulance in the year 1947, 210. The amount of \$895.00 was collected for the use of the Ambulance and turned over to the Town Treasurer.

Auxiliary Police

During the year the old Auxiliary Police Association was disbanded and a new Organization was formed and called the "Reading Police Reserves". The new organization rendered great service at the big fire last fall and on other occasions, especially Hallowe'en. For this service, I am deeply grateful.

Department Personnel Changes

Thomas E. Wall was appointed Chief of Police, Feb. 1, 1947.

Sergt. Francis L. Johnson retired from the Department, Jan. 1, 1947.

James P. McDonough was appointed a temporary Patrolman, Dec. 13, 1946, resigned from the Department, May 27, 1947.

George LeFave appointed a temporary Patrolman, April 10, 1947.

Paul F. Junkins appointed a regular Patrolman, Jan. 30, 1947.

William H. Dewsnap, Edward M. Hubbard and George LeFave were appointed regular Patrolmen, Dec. 15, 1947.

Recommendations

The Packard car, now used by the Chief, is 11 years old and should be replaced. I recommend that a Ford or Plymouth car be given to the Chief each year, and the car he breaks in turned over to the Department as a cruiser. I further recommend that the Force be increased by one man, either as temporary or permanent.

Conclusion

In conclusion, I wish to extend my appreciation to the Honorable Board of Selectmen, The Judges of the Superior and Woburn District Courts, the Clerks of our Courts, our local Press, the members of the Department and various Town Departments, and to all others who have assisted in promoting the welfare of the Police Department.

Respectfully submitted,

THOMAS E. WALL,

Chief of Police

NINETY-THIRD REPORT OF THE FIRE DEPARTMENT AND REPORT OF THE FOREST WARDEN

To the Honorable Board of Selectmen:
Gentlemen:

The 1947 report of the Chief of the Fire Department and Forest Warden is hereby submitted:

Manual Force

The permanent force consists of thirteen men including the Chief, Deputy Chief, Captain and Lieutenant. Due to retirements the first of the year two men were appointed to fill vacancies. There are 17 full time and 5 half time call men.

Auxiliary Fire Service

The Auxiliary Fire Service has continued to be a valuable asset to the department.

Apparatus

Central Fire Station:

Chief's Car — Packard, 1937, 2 way radio.

Engine 1 — Seagrave, 1934, 1,000 gal. per minute pump.

Engine 3 — Seagrave, 1929, 600 gal. per minute pump,

Engine 4 — Chevrolet, 1932, 500 gal. per minute front end pump;
100 gal. per minute portable pump.

Ladder 1 — Seagrave, 1940, 200 gal. per minute pump; 65 ft. Jr. Aerial
Ladder.

Aux. Engine 7 — Trailer, 1947, 500 gal. per minute pump.

Aux. Engine 8 — Trailer, 1947, 500 gal. per minute pump.

Fire Alarm Truck — Chevrolet, 1936, 250 gal. per minute front end
pump.

Woburn Street Station:

Engine 2 — Seagrave, 1926, 400 gal. per minute pump.

Engine 5 — Chevrolet, 1934, 400 gal. per minute front end pump.

The Chief's Car has been painted and the radiator recored. Ladder 1 has had the radiator recored. Engine 1 has new rear tires. Engine 2 has had the motor overhauled, brakes refaced, and new rear tires. Engine 4 has had the brakes refaced. Engine 5 has new rear tires.

Fire Stations

Central Station: — The new heating boiler with oil burner was placed in commission on January 16th and has proven satisfactory. The greater part of the work of installing was done by the permanent men who also

sanded and refinished the floors of the second floor and repainted the walls of the first floor.

Woburn Street Station: — Only minor repairs were made on this building during 1947.

Service Record

The department has responded to 128 bell alarms, 12 of which were false; 321 still and telephone alarms; and 138 Service calls; a total of 587. This is an increase of 14 over 1946.

The fire loss was \$18,828.95, a reduction of \$7,782.05 from 1946.

Feet of hose laid: 26,950 of $\frac{3}{4}$ inch; 47,550 of $1\frac{1}{2}$ inch; 41,600 of $2\frac{1}{2}$ inch; 203 booster tanks; 1,883 feet of ladder have been raised including 19 times the 65 foot aerial has been used; 16 salvage covers have been spread; Engines have pumped 124 hours; the cellar pump 20 hours and the lighting unit has operated $13\frac{1}{2}$ hours.

Extinguishers used: 9 soda-acid; 27 carbon-dioxide; 1 carbon-tetrachloride; and 4 chimney fuses used.

There have been 2 calls for the inhalator, 5 automobile accidents have been responded to, one call was for a lost person.

Eleven firemen and one civilian received minor injuries.

Eleven fires of unknown or suspicious origin were investigated by inspectors from the State Fire Marshals' Office, the local police, and the Fire Chief. Two persons were found guilty, in the Woburn Court, of setting fires.

All explosives turned over to the Chief have been properly disposed of.

Inspections have been made of: 227 oil burners, 9 gasoline tanks, business property, and nursing homes. Several complaints have been investigated.

Forest Fires

The department has responded to 203 grass, brush and dump fires. Most of these were caused by careless burning or maliciousness. The spring was not very hazardous but the fall was extremely dry and after many weeks with no rain, when numerous disastrous forest fires were raging in many locations in the New England States, a fire on October 23rd in Wilmington extended into the Martin Pond area of North Reading followed by a fire off South Street east of Main Street in Reading and another fire starting in Woburn extending into Wilmington and the west side of Reading. This last fire burned over more than 500 acres, approximately 40 in Reading, crossed West Street, south of the Wilmington line, endangering buildings on West Street, West Hill Circle, Longwood Road and County Road, and for a time endangered the entire west section of the town.

Outside Aid was called and responded from 24 cities and towns from Boston and Brookline and Chelsea, to Nashua, New Hampshire. These

companies worked tirelessly for many hours. A mention of the fire in "Fire Engineering", a national publication, stated that it was the largest concentration of apparatus ever assembled in the state under mutual aid. The O.C.D. auxiliary trailer pumps were used to good advantage. Fortunately, due to the strenuous efforts of the firemen, both local and out of town, auxiliary fire service, and civilians, no buildings were lost or damaged. This fire continued for many days. Credit is due the telephone operators in the transmission of emergency calls both incoming and outgoing while the office was "swamped" with other calls. The Red Cross Motor Corps, Canteen and Disaster Units of Reading communities who tirelessly prepared food and covered the fire lines to feed the fire fighters and made preparations to care for those who might be driven from their homes have credit due them. In addition, credit is due to the Lowell Salvation Army who responded with a canteen and many civilians who rendered valuable aid. The Police, regular and auxiliary who handled the vast amount of traffic, caused by spectators, and made the passage of fire apparatus possible also did a wonderful job. The replacements of lost or damaged equipment and destroyed fire hose, with the payment of additional help made an extra appropriation necessary.

Due to small dead end water mains, difficulty was experienced at the north end of West Street, Longwood Road and County Road in that many hydrants were useless due to the lack of water and hydrants distant from the fire made the relaying of water from engine to engine necessary. In one case water was relayed over one mile from a hydrant at Lowell Street in Wilmington along West Street into Reading.

Recommendations

That the permanent force be increased. That repairs be made to the rear springs on Engine 2 or new ones provided. That a new motor be installed in Engine 5. That the bathroom of the Central Station be remodeled and that a heating boiler equipped with an oil burner and a basement sump pump be installed at the Engine 2 station.

Conclusion

In conclusion I wish to thank the Honorable Board of Selectmen for their cooperation, the members of the department and the Auxiliary Fire Service for their efficient work, outside departments which have come to our assistance in time of need, the employees of the New England Telephone Company for their able assistance in the receiving and transmitting of emergency calls, the Moth Department for assistance at forest fires, the personnel of the State Marshal's Office, our local Police for assistance at fires and investigations, and the town departments and citizens for their assistance.

HUGH L. EAMES,

Chief of the Fire Department and Forest Warden

REPORT OF THE SUPERINTENDENT OF FIRE ALARM

To the Honorable Board of Selectmen:
Gentlemen:

The report of the Superintendent of Fire Alarm for the year of 1947 is hereby submitted.

The usual program of tree trimming and placing insulators in trees has been carried out with underground conduits laid in Dudley, High and Mineral Streets, also Middlesex Avenue.

Underground cable and overhead wire at Goodall-Sanford Mills was replaced.

The coming year, provided the rebuilding of Lowell Street is carried out, it will be necessary to lay conduits on Lowell Street into Hanscom and Bancroft Avenues and set one pedestal.

One fire alarm box has been replaced and several changes in box locations with some additional boxes are planned for 1948. More boxes should be added each year.

The two-way communication between the chief's car and the police station has proved to be a valuable asset and an extension from the police station to the central fire station is in the process of construction. It is hoped that two-way sets may be placed on some of the apparatus soon.

Respectfully submitted,

HUGH L. EAMES,

Superintendent of Fire Alarm

FIFTY-THIRD ANNUAL REPORT

OF THE

MUNICIPAL LIGHT BOARD

for the year ended

December 31, 1947

MUNICIPAL LIGHT BOARD

Herbert G. Evans, Chairman
Louis Ellenwood, Secretary
Joseph H. Reed

Term Expires 1948
Term Expires 1949
Term Expires 1950

Manager

Clarence L. Thomas

Office

25 Haven St., Reading, Mass.

MANAGER'S REPORT

To the Municipal Light Board:
Gentlemen:

I submit herewith my report of the operation of the Municipal Light Plant for the year ending December 31, 1947.

In reviewing the second full year of postwar operations as set forth in the summary of income and expenses, it should be gratifying to learn that in spite of steadily climbing expenses, the department has "held the line" on its rates and yet obtained a net operating income nearly equal to that of the previous year.

Plant capacity never before has been so close to power demand. The reasons for this shortage in capacity reserves are identical to the difficulties that have been widely publicized by suppliers of household gas, fuel oil and other services and commodities.

From December 1941 through 1945 the department's addition to its plant were negligible because of WPB controls whereas right on the heels of V-J Day there began a load expansion which added 1825 kilowatts to our pre-war peak of 3975 kilowatts.

An increase equal to that of eight average years growth was thus added in two years.

The operating record during 1947 established some new highs. A few condensed comments on the highlights for the year follow:

Energy Purchased 18,865,801 Kwhr

Up 11.38 percent, average cost was 1.35 cents. The fuel adjustment charge contributed largely to the 7.2 percent increase in the cost per Kwhr purchased by the department.

Peak Load 5800 Kilowatts

Up 11.5 percent; occurred December 23rd. The greatest test of capacity during the Christmas season thus came and went without any noticeable mishap.

Energy Used in Process of Distribution: 8.58%

Up a fraction: The higher core-loss of our larger transformer capacity at the power station accounts for most of the increase.

Energy Sales 17,157,276 Kwhrs

Residential service revenue per Kwhr decreased from 3.61 cents to 3.55 cents while average annual consumption decreased from 1458 to 1389 Kwhr.

Net Operating Income \$79,161.54

Down \$1,546.76. Costs are climbing steadily, undoubtedly the margin will narrow more in 1948.

The total net income which includes a profit of \$30,171.03 from the sale of appliances, and jobbing was \$109,430.64 an increase of \$14,461.57 over last year.

Customers: 7892

363 new services were installed this year.

Additions to Plant \$119,779.25

This is more than the department has expended in any previous year for system expansion. It is estimated that \$135,000.00 will be spent for expansion in 1948.

Rates: Average revenue per Kwhr sold 3.17 cents.

Down slightly. It is hoped that costs will become stabilized so that our exceptionally low rate schedules can be maintained.

A breakdown of revenue and current sold to each class of service may be of interest and is briefly summarized as follows:

Kilowatt Hours Sold and Income from Each Class of Service

	No. of Customers	Kilowatt Hours Sold	Income
Residential	7179	10,999,423	\$390,203.06
Commercial Service	630	2,757,751	81,592.61
Power — Wholesale	12	1,826,560	27,534.33
Municipal Service	41	213,850	3,976.85
Municipal Service — Wholesale ..	5	436,300	7,460.44
To other Utilities for Resale	25	47,004	1,414.53
Private Street Lights		3,362	253.45
Public Street Lights		873,026	32,433.48
Total	7892	17,157,276	\$544,868.75

Operating expenses including taxes, interest and other charges were \$483,063.92 an increase of \$49,947.81 over the previous year.

The profit and loss surplus shows an increase of \$47,184.43 over last year.

A balance of \$109,430.64 was transferred to the Profit and Loss account as of December 31, 1947.

Bond and Note payments amounted to \$16,000.00.

A contribution of \$50,000.00 was paid into the town's general funds.

Total cash received was \$709,368.26 and cash disbursements amounted to \$759,987.18

The cash balance in the Operating Fund on December 31st amounted to \$78,611.80.

The deduction of the \$50,000.00 cash distribution to the Town's general funds left a net cash balance of \$28,611.80, which was transferred to the Construction Fund.

An amount of \$37,086.25 equal to 3 percent of the cost of plant less land as of December 31st, 1946 and which is included in operating expenses has been charged off the various plant investment accounts.

Power Station

An important change at the station consisted of the replacement of our power transformers by two 7500 KVA units which were put into service June 15th.

The two units removed were sold to the Boston Edison Co., for \$7,500.00

The six high tension reactors were replaced by new ones as required to co-ordinate with our larger power transformer capacity.

A new low tension bus was cut into service on October 19th after midnight. The latter change required a shutdown of 3 hours and 44 minutes. At the same time, the main and transfer feeder buses were wiped down and cleaned.

Several minor alterations have been made to the station structure to accommodate the new construction now in process, which will provide urgently needed facilities for additional feeders.

The disposal of the former idle generating equipment during 1946 has proved to have been a timely move as the floor space that thereby became available is presently required for the extension of our feeder gallery.

The new feeder structure will be similar to the present gallery and is being constructed by two men from the A. P. Mace Co., under the supervision of Mr. Prescott R. Nichols, our station electrical engineer.

Mr. Nichols had notified the department early last year of his intention to resign, but an agreement was arranged whereby he will remain until November 1948 for the completion of this important construction.

Our power station construction engineer, Mr. H. J. Odell, met with a fatal accident on October 8th, while working on the new bus at the station. Mr. Odell in 1935 contracted to engineer and construct the extensive changes that were authorized in March 1936. He was engaged in switchboard and power station wiring for 42 years and considered one of the best men in New England on that type of work.

He was employed by the department in 1940 shortly after the retirement of Mr. Hawkins.

The passing of such an esteemed employee is deeply regretted.

Distribution

Power demands continue to run close to or exceed reserve capacity. Tests made within the last few months indicated that one out of every three transformers were sustaining overloads from 150 to 325 percent of normal ratings. Other elements of the distribution system-feeder conductors, voltage regulators, section fuses, low voltage conductors and many individual services, as well as transformer installations, are requiring rehabilitation as rapidly as available materials, manpower and money will allow.

Early in December, it was necessary to relieve the Highland feeder by a transfer of load to the North Main Street feeder as an expedient until a second feeder to the Highland sector can be constructed. The High Street underground was extended with this end in view to provide a second outlet from the underground at High Street and Middlesex Avenue. The arrangement planned involves the underground installation of the present overhead three-phase mains from High Street near Jadem Terrace to Lowell Street at Willow Street.

Larger copper will replace the present conductors on the Wilmington feeder between Perry's Corner and Shawsheen Avenue.

Last July 3rd the new feeder to Lynnfield Center was put into service. The new route via Bay State Road has reduced the circuit distance to half of the former layout through North Reading with the resultant large savings in investment and operating costs.

The discontinued circuit will be used this year as the overhead construction of the second North Reading feeder as soon as the required underground conductors are installed from the power station to the Charles Street riser.

Ten weatherproof enclosures have been purchased to house the 320 K V A of indoor capacitor units which have been in operation at the power station since 1932.

The new housings will adapt the capacitor units for pole mounting and thereby afford additional operating advantages. New poletype capacitor units totalling 180 K V A also will be installed.

Transformers will be tested on a systematic plan with newly purchased recording devices.

Many tree hazards to service have been eliminated by effective trimming for line clearance in Reading and Wilmington.

The year's extensions to the overhead lines required the adding of 176 poles, 68 of which were set by the Telephone Company, 40 Transformers, 278,355 feet of wire and 363 new service connections. Of the 252 pole renewals, 87 were replaced by the Telephone Company.

Street Lighting

Additional Public street lights were installed as follows: Reading 12, Lynnfield 11, North Reading 10, and Wilmington 34.

One private street light was added in Reading.

The 400 candle-power lamps on South Main Street have been changed to 250 candle-power and new fixtures installed.

The total number of public street lights installed as of December 31st were 2,228, and private street lights installed were 18.

The Kilowatt hours sent out on the Reading street light circuits were 570,431 and the appropriation from the tax levy for street lighting was \$16,000.00.

Meter Department

During the year, 1143 meters were tested either in the laboratory or in customer's premises. The department purchased 384 meters and retired 73 from service that were obsolete or damaged beyond repair.

Outdoor meter enclosures were installed only on new connections and where meter changes were required on alterations in service capacity or locations. The 365 outdoor meters installed during the year increased the total to 4,404 as of December 31, 1947.

Because of the unusual amount of maintenance and new construction, the meter department was called upon to assist in many other phases of operations; such as, system voltage and load tests, traffic control repairs, street light control repairs, radio interference and transformer and reclosure tests.

Automotive Equipment

The 1936 Chevrolet and 1939 Plymouth Coupes have been replaced with new Plymouth Coupes.

A new line construction body with a crew compartment has been ordered and delivery is expected sometime this Summer. When this body is ready, it is proposed to purchase a new truck chassis to replace the 1937 Chevrolet which has a stake body unsuitable for line construction work.

A new Ford pick-up truck has been ordered to replace the 1941 Studebaker truck used by the service department and delivery will be made about the middle of January.

Summary of Automobile Expense 1947

Miles Travelled	134,705
Gasoline — 12,082 gals	\$ 1,841.50
Oil — 608 qts.	114.16
Anti-Freeze — 57 qts.	25.12
Material	1,944.12
Labor	3,079.05
Registrations	30.00
Insurance	836.08
Depreciation	3,509.31
<hr/>	
Total Cost	\$ 11,379.34
<hr/>	
Cost per mile	8.447c

Appliance Department

The Sales Department has concluded a year of sales effort which, from a standpoint of revenue, was very good.

The ratio of sales made in relation to the demand for appliances was good, due to the ability of manufacturers to produce ranges and refrigerators in better quantity during 1947.

The sales of appliances showed a net profit of \$29,026.73.

Gross sales were \$141,637.75, which was an increase of 49 percent over 1946.

Incandescent lamps were sold in the amount of \$2,529.48 and miscellaneous sales of \$2,001.01 were made. These figures are included in the total gross sales.

The estimated number of kilowatt hours used annually by the appliances sold in 1947 is 611,278 and the amount of increased annual estimated revenue from the sales of these kilowatt hours is \$21,394.73.

In closing I wish to express my sincere appreciation for the advice and support of the members of the Municipal Light Board and for the loyal cooperation of the employees all of which has made possible the successful operation of the plant.

In accordance with the provisions of Section 57, Chapter 164 of the General Law, I submit herewith my estimate of the income and expenses of the plant for the year ending December 31, 1948.

ESTIMATE FOR YEAR 1948

INCOME:

From Private Consumers	\$586,090.47
From Tax Levy	
For Street Lights	16,500.00
For Municipal Buildings	5,665.00
From Miscellaneous Income	1,030.00
Mdse. and Jobbing	4,000.00
TOTAL INCOME	\$613,285.47

EXPENSES:

Production	\$288,835.99
Distribution	108,400.00
Utilization	13,750.00
Commercial	26,000.00
New Business	250.00
General and Miscellaneous	41,123.00
Depreciation	40,377.56
Bond and Note Payments	10,000.00
Interest on Bonds and Notes	640.00
Uncollectible Operating Revenue	1,500.00
Taxes — Outside Towns	8,500.00
Interest on Consumer's Deposits	750.00
TOTAL EXPENSES	\$540,126.55
Excess — Income over Expenses	73,158.92
K.W.H. Purchased	20,795,250
K.W.H. Sold	19,027,655
K.W.H. for Reading Street Lights	572,960
Expense per K.W.H. Sold	2.84c
Cost of Street Lights	\$ 16,272.00
Appropriation for Street Lights	\$ 16,500.00

A summary of Income and Expense, total cost of Plant together with the Statement of Assets and Liabilities, The Profit and Loss Account, list of bills remaining unpaid at the end of the year, and the auditor's certificate is appended herewith.

Respectfully submitted,

CLARENCE L. THOMAS, Manager

CHARLES E. STANWOOD & COMPANY

Accountants and Auditors
150 Congress Street
Boston, Massachusetts

January 30, 1948

To the Municipal Light Board
Town of Reading
Massachusetts

We have examined the accompanying balance sheet of the Municipal Light Department of the Town of Reading, Massachusetts, as at December 31, 1947 and related statements of income and profit and loss for the year then ended, and reviewed the system of internal control and accounting procedures and, without making a detailed audit of the transactions have examined or tested accounting records of the Department and other supporting evidence, by methods and to the extent we deemed appropriate.

In our opinion said financial statements present fairly the position of the Municipal Light Department as at December 31, 1947 and the results of their operations for the year then ended, in conformity with the "Uniform System of Accounts for Municipal Lighting Plants" as prescribed by the Department of Public Utilities of Massachusetts.

CHARLES E. STANWOOD & CO.

REPORT OF THE MUNICIPAL LIGHT BOARD

The report of the Manager as submitted by him together with certificate of the auditor is hereby approved by the Municipal Light Board and constitutes its report to the Town.

HERBERT G. EVANS

LOUIS ELLENWOOD

JOSEPH H. REED

Municipal Light Board

SUMMARY OF INCOME AND EXPENSE

for the year ending December 31, 1947

REVENUES:

Residence Service	\$390,203.06
Commercial Service	81,592.61
Primary Power — Wholesale	27,534.33
Municipal Service	11,437.29
Sales to Private Companies and Municipal Plants	1,414.53
Street Lighting Service	32,686.93
Miscellaneous Income	31,625.81
Total Revenues	\$576,494.56

EXPENSES:

Production Expenses	\$254,711.07
Distribution Expenses	87,408.10
Utilization Expenses	12,470.55
Commercial Expenses	26,293.48
New Business Expenses	183.51
General Expenses	36,403.46
Depreciation	37,086.25
Interest on Bonds and Notes	633.54
Taxes	7,460.24
Uncollectible Operating Revenues	144.94
Interest on Consumers' Deposits	733.88
Retirement Pensions	3,534.90
Total Expense	\$467,063.92

Excess of Revenues over Expenses	\$109,430.64
Bonds and Notes Paid	16,000.00
Transfer to Town Treasurer	50,000.00
Net Revenues	\$ 43,430.64

TOTAL COST OF PLANT

as of December 31, 1947

Cost of Land—Ash Street	\$ 2,575.80
25 Haven Street	7,459.46
Cost of Structures—Ash Street	66,224.79
25 Haven Street	28,093.90
Generator Plant—Steam	14,619.24
Transmission, Distribution and Storage:	
Cost of Trans. Sta. and Substa. Equip.	164,204.53
Cost of Poles, Fixtures and Overhead Cond.	590,377.13
Cost of Underground Conduits	122,545.17

Cost of Underground Conductors	111,981.49
Cost of Consumers' Meters	82,983.93
Cost of Meter Installations	29,347.67
Cost of Line Transformers	71,483.42
Cost of Line Transformer Installations	6,573.56
Utilization Equipment:	
Cost of Street Lighting Equip.	57,483.67
TOTAL COST OF ELECTRIC PLANT	\$1,355,953.76

STATEMENT OF ASSETS AND LIABILITIES

as of December 31, 1947

FIXED ASSETS:

Gas Storage Hot Water Heaters	82
30 Gallon Water Tanks	15
Tankless Hot Water Heaters	31
Water Closets	209
Bath Tubs	157
Lavatories	201
Stall Showers	16
Urinals	4
Flat Rim Sinks	118
Sink and Tray Combinations	37
Cabinet Sinks	13
Slop Sinks	3
Laundry Trays	28
Washing Machines	3
Dish Washers	3
Garbage Grinders	5
Soda Fountains	2
Drinking Fountains	3
Grease Traps	1
Gasoline Interceptor Traps	2
Sewer Connections	35
Cesspool Connections	127
Septic Tanks	16

Respectfully submitted,

KENNETH G. SHAW

Inspector of Plumbing

REPORT OF TREE WARDEN

To the Citizens of Reading:

I submit my report for the year 1947.

The men worked fourteen weeks on line clearance for the Electric Light Department. The expense of this work was paid by the Light Department. In addition to this line clearance low branches and dead wood were removed on Village, Highland, John, Lowell, Sanborn, Woburn, Linden, Hartshorn, Bond and Mineral streets as well as Bancroft ave., Summer ave., Glen road and Van Norden road.

Dormant spraying remains about the same from year to year. This spray is for the control of Scale, Pear Psylla and Spruce Gall.

It was necessary to remove a total of sixteen trees. Several of these trees were destroyed by gas.

Eighty-two trees were planted on the roadside. Nine of these trees were replacements for trees that had been broken off.

During the past year the Dutch Elm disease has increased in Eastern Massachusetts. Diseased trees have been discovered in Andover, Swampscott and Boston. There is a great deal of experimental work going on in regard to this disease. At the present time it is recommended to remove all dead and dying wood and to thoroughly spray the Elms two or three times.

All the Elms on Town property as well as those on the roadside were sprayed once. While it is desirable to spray these trees more than once, with our present equipment and the spraying on private property, this is not possible in the limited time that this work is effective. The trees and brush on the roadside were sprayed again late in July for the control of the Fall Web Worm.

About two miles of roadside were sprayed to eradicate Poison Ivy.

I take this opportunity to thank the men of this Department and all others who assisted me in the past year. Especially the Superintendent of the Board of Public Works, Mr. Welch, for the use of his men and equipment removing stumps and large tree trunks.

Respectfully submitted,

MAURICE H. DONEGAN,

Tree Warden

Annual Report

OF THE

SCHOOL COMMITTEE

OF THE

Town of Reading, Massachusetts

For the Year Ended December 31

NO SCHOOL SIGNALS

Radio announcement when possible over WNAC, WEEI, WBZ and WLAW between 7:00 and 7:45 a. m.

Fire alarm 2-2 repeated three times. Street lights turned on for five minutes at the following times:

- 7:15 a. m. for Senior High School
- 7:30 a. m. for Junior High School
- 7:45 a. m. for Grades 1-6 inclusive

Since the Elementary Schools have two sessions, the afternoon session may be discontinued due to inclement weather. When afternoon sessions are discontinued, announcement will be made over the radio, fire alarm, street light system, as well as in the individual schools on or before 11:30 a. m.

High School sessions will be called off only in cases of extremely severe weather or other emergencies. None of the schools will be closed except in severe weather, but it is hoped that parents will at all times use discretion as to whether their children should attend, even when the schools are in session.

SCHOOL CALENDAR

No sessions:

REPORT OF SCHOOL COMMITTEE

To the Citizens of Reading:

The School Committee submits its annual report.

This year the School Committee has tried to hold its high standard in the teaching personnel and plant maintenance at a minimum cost to the town. We have been well aware of the fact that all materials and service costs have risen, yet we have maintained our school buildings to their peak of usefulness.

At the demand of The State Inspector of Buildings, the School Committee will have expended \$12,515.00 as specified for fire escapes, safety lights, fire doors, smoke screens, et cetera, in certain of the buildings in the school system.

The committee has had prepared, working plans, specifications, and estimates of the proposed Summer Avenue and Oak Street Elementary School which it is submitting to the townspeople at the coming town meeting. The citizens of Reading should know that the crowded conditions in the elementary grades make this building an immediate necessity. Birth statistics prove that this situation is becoming progressively worse. We have placed in the town warrant a request for a sum of money to be used for this purpose.

The School Committee has established a new salary schedule to be effective September 1, 1948. The purpose of doing this is to keep Reading on an equal competitive basis with other towns of the same size and income in the selection and retention of a fine teaching staff.

During the year the resignation of Dr. Elbridge C. Grover, as Superintendent of Schools was received and accepted with regret by the committee.

The terms of Mrs. Mary E. Earley and Dr. Merle W. Wescott expire this year.

Respectfully submitted

ALEXANDER P. GLOVER, Chairman

MARY E. EARLEY

MELVIN S. CROSBY

GLADYS S. MILTON

GOULD B. RUGGLES

MERLE W. WESCOTT

REPORT OF THE SUPERINTENDENT OF SCHOOLS, 1947

To the School Committee

Reading, Massachusetts

Mrs. Earley, Mrs. Milton, and Gentlemen:

Herewith please find my ninth annual report as Superintendent of Schools, which is the fifty-fifth of a series of annual reports describing the work of the Reading Public Schools.

Reading, along with other towns and cities, has been faced with two major problems during the past year. The first, and most important, was the changes in teaching personnel. The second was the increased school enrollments, especially in the elementary grades. Underlying both of these problems has been the difficult economic situation with high prices and shrinking dollars with which all public services have been confronted. These conditions resulted in the need for increasing salaries and the necessity of paying high prices for supplies, repairs and maintenance of public property.

The school administration has, throughout the year, sought to attract teachers with ability, excellent training, and experience. During the year eighteen new members have been added to the school staffs. This number is four less than the twenty-two added in 1946, yet it is a sizable number of people to assimilate in an organization and still retain the advantages of the continuity which made possible constant and steady professional growth under pre-war conditions.

Increase in Birth Rate

School populations are increasing throughout the country. This increase is largely due to the accelerated birth rate during the war years. It is beginning to be reflected in the primary grades and will have even more effect upon elementary school enrollments in the next five years.

Births, as recorded in the Town Reports for the last ten years, show the following increases: 1937-144, 1938-138, 1939-149, 1940-165, 1941-170, 1942-222, 1943-237, 1944-223, 1945-205, and 1946-244.

Enrollment Increase

Since Reading is so close to Boston we can expect continued increases in school enrollments, not only from the increase in birth rate, but also from families moving into Reading to make it their home.

This growth will bring problems of school accommodation which will be acute unless additional facilities are provided in the near future.

The October 1, 1947, enrollment figures by grades and schools are as follows:

School	Grade	1	2	3	4	5	6	Opp.	
Pearl		101	81	89	74	58	73	27	503
Highland		37	35	27	44	112	104	—	359
Prospect		51	36	38	46	—	—	—	171
Lowell		36	34	26	34	—	—	—	130
Chestnut Hill		20	14	20	15	—	—	—	69
Grade Totals		245	200	200	213	170	177	27	1232

and the comparative enrollment figures for the last seven years are:

School	1941	1942	1943	1944	1945	1946	1947
Senior High	599	548	491	508	495	531	568
Junior High	524	521	514	524	514	501	496
Elementary	1093	1103	1150	1152	1180	1201	1232
Totals	2216	2172	2150	2184	2189	2233	2296

Neither birth rates nor enrollments alone can be depended upon for an accurate index of future school population growth because of the movement of families in and out of town, but taken together indicate a definite and steady increase of young people for whom the schools must provide.

Safety Construction and Building Repairs

Much has been done this year to make our school buildings safer and more attractive. Fire escapes have been added to the Senior High School, and emergency lighting is being installed in the Junior High School, Highland, Lowell, and Pearl Street Schools. Fire doors have been made for the Chestnut Hill, Lowell, and Highland Schools, and smoke screens have been erected in the Lowell and Highland Schools.

Because materials were again available, many repairs were undertaken which have been deferred for a number of years. The most important among these repairs were the following: hot-topping the King Street driveway at the Junior High School, new shades throughout the School System, painting auditorium and cafeteria and a number of rooms in the Junior High School and the first floor in the Senior High School, re-tubing two large boilers in the Junior and Senior High Schools, and providing large curtains in the Junior High School gymnasium. The roof of the Prospect Street School caught fire and had to be replaced. An incinerator was installed in the Highland School, and the water piping in the basement of this school was renewed.

No matter what is done to make the present buildings safe and attractive, there still must be faced the need for increased room for effective instruction.

The pupils in the Prospect School district still must use two classrooms in the Junior High School. In the Elementary schools there are many classes in which there are more children than seems wise for efficient learning. This is particularly true of the primary grades.

It may be necessary next year to turn the small library and the adjoining teachers' room in the Highland School into an additional classroom due to the growing school population in this area.

The problem of enrollment growth is not an easy one to solve. If a new school at the corner of Oak Street and Summer Avenue were opened tomorrow, it would have to accommodate the two classes at Chestnut Hill, the six rooms at Prospect, and all the fifth and sixth grades at Highland School who live in the Chestnut Hill and Prospect School districts. This would mean there would be enough pupils to fill twelve rooms of a proposed eighteen room building.

There is urgent need to consider a long-range building program when costs make construction possible.

Teaching Stresses Fundamentals

Schools have been established by the citizens of the community to do two specific things: the first is to teach pupils those fundamental learnings which will make them efficient citizens; the second is to teach these learnings in such a way that pupils can apply them efficiently in the practical situations arising in their lives today, and in the years to come. The first of these objectives dominated much of school work in the nineteenth century, but life became much more complex in the 20th century and these fundamental learnings we now use in a multitude of ways unknown before.

The most important contribution to teaching in the last twenty-five year is the discovery that children differ widely in their ability to learn. This difference in learning ability is to a certain extent general. It is also specific. Children differ in learning Arithmetic, Spelling, Reading, Writing and other things.

Our methods in school take these facts into account. Teachers take special pains to understand the difficulties a child has in learning, and work with him individually to bring up his achievement.

We use drill but believe it is most effective when it has meaning for the pupil. If, in the solution of an Arithmetic problem, a child fails because he has not learned his multiplication facts—that is the time for thorough drill, because he can see the need of it.

The teaching of the multiplication facts is begun as early as the child has a curiosity or need to use them, even if the child happens to be in the first grade. The learning of these facts proceeds until all of them are learned. The child in this way builds up a knowledge of the multiplication table by the fourth or fifth grade and values it as a tool for future use.

Each year we find certain lacks and failures in basic knowledge, due perhaps to imperfect teaching methods or failures in intergration. Those things we mark for fresh study to discover how improvement may be made. Throughout the country a fresh attack is being made on spelling,

and we are working on it in Reading; we are also diagnosing failure of individual students in fundamentals by means of a battery of tests in the High School, and finding ways of supplying those things which are lacking.

Thinking things through and developing sound judgments also enter into teaching from the first grade through the high school. Our schools provide many opportunities for growth along these lines. Discussions in English and Social Study classes, membership on a student council, or a traffic patrol, or working with a few other pupils to present the results of the group's study to the whole class, constantly help pupils develop good judgment and clear thinking.

To help all teachers obtain a broad common background of teaching material and suggestions for its use, the State Department of Education in 1947 issued a large teachers' guide of over 500 pages. With all teachers in a given grade using this guide, pupils in the various schools are guaranteed more uniform instructional material than heretofore. The textbooks and supplementary books used in connection with the State Guides, provide pupils of different levels of ability with material suited to their needs.

Emphasis on Speech

This year speech has been emphasized—especially in the Junior High School. Here we have had some assistance from an excellent speech instructor who developed speech work with the teachers, and they in turn worked with their students. Through this emphasis on developing correct speech habits we hope our pupils will be better able to think on their feet and to talk in clear, concise, and convincing English. The Elementary schools are also giving increased attention to good speech.

Music Classes Grow

Music has increased in importance in the school curriculum during the last year. The band in the High School now numbers 53 members and has played regularly at football games. The High and Junior High School orchestras have increased in size during the year.

A new musical venture was started in the Elementary Schools this year. Instrumental classes were organized at Pearl and Highland Schools. School-owned instruments were used when ever possible—these were supplemented by instruments which were rented by parents or donated by friends. Weekly classes taught by the Director of Music have included eighteen pupils playing trumpets, cornets, trombones or horns, twenty playing clarinets or saxophones, eighteen playing violins or cellos, and ten playing drums. This teaching is preliminary to the development of Elementary School orchestras. Much public interest is being shown in the method of teaching as well as in the progress of the pupils.

Many students are taking advantage of private instruction being offered after school and Saturday mornings here in Reading and in Boston. Nine students are sufficiently advanced to participate in rehearsals and concerts of the Reading Civic Symphony.

Art Work is Unified

The Art work has grown to a point where additional supervision will be needed before long. The present supervisor carries a load of four High School classes and the supervision of Art work in forty Elementary classes. In the High School a course of Art Appreciation, open to all students, is offered. This course provides a one-year survey of Art, both from the historical and contemporary viewpoints. In the second and third years, the Art work covers production of drawings, paintings, designs, interior decoration, modelling and posters. The Art pupils have generously loaned their talents in supplying posters, displays, and decorations for many community drives and affairs.

The Junior High School Art Classes have developed a program leading up to the Senior High School work. It is, however, also concerned with finding the pupils with art ability and encouraging them to prepare for careers in which these talents are used.

In the Elementary Schools the teaching of Art is a part of many activities—decorating the stage for a play; contributing to exhibits in the school showcases; illustrating events in Social Studies; and representing the child's own experiences in art forms. Pupils become interested in line, form, color, rhythms, and design organization.

Health Work in the Schools

The work of giving thorough general physical examinations to children in Grades 1, 3, 6, 9, and 12 has continued this year. The Massachusetts Vision Test is given throughout the school system in search of defective vision.

In June a Hearing Research Program was set up in the Junior High School. This made possible for each child with a reported hearing loss an opportunity for an ear, nose and throat examination by a recognized specialist. Dr. Werner Mueller, of the Massachusetts Eye and Ear Infirmary, made the examinations. The results were as follows:

44 pupils showed a significant hearing loss.

1 pupil had a marked hearing loss since childhood.

1 pupil had hearing loss throughout the tone range.

Of the 44 showing significant hearing loss, 18 were recommended for surgical removal of tonsils and adenoids by X-ray treatment. Opportunity to have these operations performed without charge were made through Mr. Philip Johnston, of the Child Growth and Development Division of the Department of Public Health.

Dental Clinic

Because of the increase in costs, the Dental Clinic has found itself in a difficult financial position. Appeals have been made to the Parent-Teacher Associations for additional funds. If increased support is not obtained soon, the work of the Clinic will be greatly reduced.

Diphtheria Clinic

In March notice was received that a Junior High School pupil had been found to have a positive throat culture. Immediately a Schick Clinic was organized with the aid of Dr. Halligan, Dr. Baisley, Dr. Morris and Dr. Halpin, assisted by three Reading Good Health Committee workers. The Schick test was administered to 442 pupils, 19 teachers and 3 cafeteria workers during a three-hour period.

Cafeteria Program Expanded

With funds available in 1946 and financial assistance from the War Food Administration cafeterias were established in the Highland and Pearl Street Schools. The cost of a well-balanced meal for children in these cafeterias at present is 25c. This includes a bottle of milk. For each meal the War Foods Administration provides 7c thus making it possible for the pupils to obtain the benefit of a much better meal than they could otherwise.

The basis of any school system is the quality and ability of its teaching corps. The members of the school staff in Reading have worked hard this year to reach high professional standards. They have done this in the face of very trying economic conditions. They should receive the appreciation of everyone interested in the education of Reading's youth.

Respectfully submitted,

ELBRIDGE C. GROVER

REPORT OF THE INSPECTOR OF WIRES

To the Honorable Board of Selectmen:
Gentlemen:

The report of the Inspector of Wires is hereby submitted.

Notices have been received of the following electrical work:

Additions to existing wiring ..	118	Laundry Machine and dryer ..	1
Aid conditioning units	2	Mangles	1
Alterations to existing wiring ..	9	Motors	9
Barns wired	2	Offices	1
Corrections made to wiring ..	32	Oil burners (power)	162
Damper regulators	1	Ranges	25
Dishwashers	2	Refrigeration	13
Dwellings (New)	131	Repairs to old wiring	5
Dwellings (Old rewired)	2	Repairs after fire damage	4
Freezing units	1	Repairs after lightning damage	4
Garages	2	Roadside stands	1
Garbage disposal units	2	Services (replaced)	33
Gasoline pumps	9	Services (temporary)	10
Generators (gasoline driven) .	2	Shops	2
Greenhouses	1	Signs	3
Gas heat controls	30	Stokers	4
Heat Regulators	2	Ventilating fans	5
Henhouses	2	Water heaters	20
		Water pumps	5

The cooperation of the electricians has been appreciated and there has been very few cases where changes were necessary in work done. But there were several cases where existing wiring, installed by amateurs, has been condemned.

Respectfully submitted,

HUGH L. EAMES,

Inspector of Wires

Status Quo

Annual Report of

Public Library Trustees

In the town reports for 1945 and 1946 the Trustees of the Public Library have shown clearly the need for more storage space for books and records but there have been uncontrollable factors in the way of progress along that line. We are thus able to make our 1947 report quite brief.

A visit to the Library would demonstrate to any keen observer the constant demands that face the Library staff. We, therefore, still point to the plans for expansion as a present necessity and (when completed) as adequate to care for a half-century of growth. When the townspeople sense this need and ask for action, the developed plans still will be suitable; but it is to be hoped that this awakening may take place in the not too distant future.

Sufficient evidence describing the cramped conditions under which the Library operates, and the architect's plans for relieving the situation have been portrayed in the two previous annual reports. Until the townspeople fully realize the absolute need for expansion at the Library, there is small likelihood of building the required stack room. In the meantime, the Library staff serves the community as efficiently as conditions allow.

The Library staff is woefully underpaid. During the war, one of the five per cent salary increases granted to employees in other town departments was denied in the Library budget. Libraries with circulations similar to Reading's have a much more favorable salary schedule. We believe more careful consideration should be given before the town meeting members refuse a request for adequate pay.

On the recommendation of the librarian we have decided not to take advantage of the Saturday closing. Leisure and cultural interests can be served, in particular, on Saturday. This is in keeping with the policy to do a superior job under inferior conditions of housing and salaries.

Board of Library Trustees

William S. Tonks, Chairman
C. Nelson Bishop
Katherine C. Pierce

Eve F. Henderson, Secretary
Sydney M. Hodson
Neil C. Robinson

TWENTY - SEVENTH
ANNUAL REPORT
OF THE
BOARD OF PUBLIC WORKS

for the year ended
December 31, 1947

REPORT OF THE BOARD OF PUBLIC WORKS

To the Citizens of the Town of Reading:

The Board of Public Works herewith submits its Annual Report for the year ending December 31, 1947.

The Board organized with Harold W. Putnam as Chairman and Harmon D. Smith as Secretary. Philip Welch was reappointed Superintendent.

Regularly scheduled meetings were held during the year, as were several special meetings and conferences. Individual members were appointed to and served on special committees.

Public Hearings were advertised and held on street acceptances, sewer extensions, drain easements and pole locations. Acting as the Board of Survey, several hearings were held on proposed housing developments, and for the establishment of lines and grades on existing and proposed private ways and new streets.

Petitions for sewer extensions, storm drains, water mains, granolithic sidewalks, granite curbing, and other services have been filed with the Board, the cost of which greatly exceeds the amount of the usual annual appropriations made for these purposes. The Board, consequently, has tried to install the various utilities requested based on the greatest need and value to the Town. The Board will, in 1948, be able to provide sewers to a greater extent since a bond issue for this purpose has been approved.

Storm water drain requests are continually being received. This presents a serious problem. A large backlog of requests now exists, the estimated cost of which is far in excess of normal yearly appropriations. Unless greater funds are provided for this purpose annually, a point will soon be reached where a sizeable bond issue will be necessary.

A substantial increase in the number of water main extensions and water services was realized in 1947. It is expected that a similar situation will exist in 1948. A number of developments have been started in various locations many of which will require water main extensions plus a substantial number of services in each case.

The attention of the Townspeople is called to the excellent service rendered and the long hours worked by the employees during the snow season. At the time of writing this acknowledgment of service is quite timely. It does not seem necessary to remind you that without the proper supervision by the Superintendent and foremen and the good work

of our chauffeurs who operate the equipment and other workmen doing miscellaneous tasks during regular and extra hours beyond the ordinary call of duty, there would be many a day that we could not pursue our regular routine habits.

Although a street here and there has been cleared a few hours later than we or you thought it should be, we feel that the general conditions during the snow season have been equal to any nearby Town and better than most. Credit for this is not ours but the employees and we are sure that, given proper equipment and reasonable wages, these employees will continue to give you the type of service for which the Town of Reading has many times been complimented.

The Board has endeavored to cooperate with other Town Boards and Departments during the past year and wishes to acknowledge the courtesy, help, and cooperation extended to them by other Town Departments.

On December 1, 1947, a letter of resignation was received from Mr. Wendell P. Davis, to take effect December 31, 1947, due to his change of residence from Reading to Durham, New Hampshire. Mr. Davis was a member of the Board of Public Works from 1936 to date, a period of eleven years, during which time he had served as Chairman for eight years. He also served as Chairman of the Reading Drainage Committee and was a member of several sub-committees of the Board of Public Works. His resignation was accepted with deep regret by the Board. His continuous conscientious service to the Town over a long period merits the praise of the Town. The remaining members of the Board of Public Works commend him to the Town as an example of a fine public spirited citizen always willing to serve the Town in an exceptionally fine manner.

Reference is made to the report of the Superintendent, which follows, for a more detailed account of the activities of the various divisions which comprise the Departments supervised by the Board of Public Works.

Respectfully submitted,

HAROLD W. PUTNAM, Chairman

HARMON D. SMITH, Secretary

WENDELL P. DAVIS

ALEXANDER LINDSAY

WILLIAM WEBB

SUPERINTENDENT'S REPORT

To the Board of Public Works:

Gentlemen:

As required by Section 4, Chapter 118 of an act authorizing the Town of Reading to establish a Board of Public Works, I respectfully submit for your consideration the Twenty-seventh annual report of the Department, including a financial report of each division and a Chronicle of the principal work performed with recommendations for the coming year.

Rainfall at Hundred-Acre Pumping Station — 1947

Month	Normal Rain- Fall (Inches)	Rainfall in 1947 (Inches)	Excess or Deficiency—1947
January	3.39	3.10	—0.29
February	3.16	1.03	—2.13
March	3.70	3.69	—0.01
April	3.86	4.91	+1.05
May	3.01	3.27	+0.26
June	3.60	2.58	—1.02
July	3.40	5.83	+2.43
August	3.30	1.44	—1.86
September	3.63	3.33	—0.30
October	2.87	0.44	—2.43
November	3.40	6.24	+2.84
December	3.54	4.05	+0.51
Totals	40.86	39.91	—0.95

The average rainfall for Massachusetts, as deduced by the State Department of Public Health from long continued observation in various parts of the Commonwealth, is 44.54 inches.

As may be seen by a table in this report showing the amount of

rainfall for the years 1900-1947 inclusive, the average rainfall at the Reading Hundred Acres Pumping Station No. 2 on Strout Avenue is 40.86 inches.

The rainfall in Reading in 1947 was a deficiency of 4.63 inches compared with the State observation, and a deficiency of .95 inches compared with the Reading Pumping Station observation.

There was a deficiency of rainfall in the months of January, February, March, June, August, September and October of 8.04 inches, and an excess in the months of April, May, July, November and December of 7.09 inches compared each month with an average rainfall at Reading Pumping Station between the years 1900-1947 inclusive.

The greatest amount of rainfall in 1947 for any one month was in November, with a fall of 6.24 inches; in any one day, Wednesday, November 12, 1947, with a fall of 3.33 inches. The year's total rainfall of 39.91 inches was an excess of 1.59 inches over the total rainfall of 1946, which was 38.32 inches.

The elevation of the Hundred Acre Pumping Station No. 2 is approximately eighty feet above sea level.

SUMMARY OF STATISTICS

For Year Ending December 31, 1947

Reading Water Department

Reading, Middlesex County, Massachusetts

General Statistics

Population by census of 1946: 12,327

Date of Construction: 1890, Mill Street; 1931, Grove Street.

By whom owned: Town of Reading.

Sources of Supply: Filter Gallery and Artesian Wells.

Mode of Supply: (Whether gravity or pumping): Pumping.

Pumping Statistics

Builders of Pumping Machinery: Sullivan Machine Co., George F. Blake
Mfg. Co., Platt Iron Works, DeLaval Steam Turbine Co.

Electric Pumps at Grove Street Station

Description of Pumps:

(A) Pumping Unit No. 1 \div 2 — stage 5/4 DeLaval, 75 H.P. 1750
R.P.M. 3 phase 60 cycle, 440 volts, 650 G.P.M.

(B) Pumping Unit No. 2 \div 2 — stage 8/6 DeLaval, 125 H.P. 1750
R.P.M. 3 phase 60 cycle, 440 volts, 1000 G.P.M.

K. W. H. used for year: 353,000.

Power Cost for year: \$6,362.99.

Total Pumpage by Venturi Meter: 268,036,800 Gallons.

Cost of Pumping per million gallons, power only: \$23.07.

Average number gallons pumped per K. W. H.: 759.39.

Cost of pumping figured in Total Pumping Station No. 2 expenses, per
million gallons pumped: \$33.56.

Cost of Filtration, per million Gallons, figured on Filtration Plant ex-
penses: \$2.62.

Total Cost of supply water, per million gallons, figured on Total Main-
tenance, plus interest on bonds: \$185.82.

Average Static Head against which pumps work: 228.

Average Dynamic Head against which pumps work: 258.

Statistics Relating to Distribution Mains

Kind of Pipe: Cast Iron, Galvanized Iron.

Sizes: 1¼ inches to 12 inches.

Extended: 750.55 lineal feet of 8", 4,912.10 lineal feet of 6" cast iron pipe,
61.0 feet of 1¼" Cement Lined Pipe — Total extended in 1946 —
5,723.65 lineal feet.

Total in use at present: 54.43 miles (6" to 12").

Cost of Maintenance per mile: \$6.67.

Number of Hydrants added during year: Seven.

Number of Hydrants in use (public and private): 340.

Number of Stop Gates added during year: 14.

Number of Stop Gates now in use: 874.

Number of Stop Gates smaller than 4": 153.

Number of Blow Offs added during year: None.

Number of Blow Offs now in use: 29.

Range of Pressure on Water Mains: 45-90 lbs.

Statistics Relating to Suction Mains

Kind of Pipe: Cast Iron.

Sizes of Pipe: 16", 12", 10", 8".

Total Number of Feet in use: 116 feet of 16", 1270 feet of 12", 882 feet
of 10", 3548 feet of 8" — Total = 5816 feet.

Gates in use on Suction Mains: 1-16", 4-12" 1-10", 3-8", 102-2½" Gates.

Wells in Use: Line A—7 Wells, Line B—17 Wells, Line C—11 Wells,
Line D—12 Wells, Line E—15 Wells, Line F—19 Wells,
Line G—8 Wells, Line H—13 Wells, Line I—9 Wells.
Total—111 Wells.

Statistics Relating to Services

Services: Kinds of Pipe: Cast Iron, Galvanized Iron, Lead Lined, Cement
Lined, and Copper Tubing.

Sizes: ¾ inch to 6 inch.

Extended: 8,009.50 feet.

Total in use: 46.37 miles.

Number of active service taps added during year: 142.

Number of service taps in use: 2976.

Average length of services installed in 1947: 54.48 feet.

Average cost of water services to owner in 1947: \$36.86.

Number of water meters tested: 448.

Number of water meters repaired: 331.

Number of water meters added: 93.

Number of water meters junked: 3.

Number of water meters now in use: 3436.

Main Pipe Construction

As anticipated and predicted in the 1946 Annual Report, construction of new residences requiring water main extensions and service connections reached an all-time high in 1947, due to the more plentiful supply of building materials. Many of these new residences were constructed on private ways where no municipal water installation existed, and in fifteen instances, water mains were extended under the 4% guarantee method.

In two instances, existing 1¼" water mains which had become inadequate to properly supply the residences serviced by them were replaced by larger diameter main pipes, on South Street from Main Street Easterly by a 6" main, and on Cross Street from Ash Street to No. 57 Cross Street by an 8" main. A table included in this report illustrates the length, size and location of all main pipe extensions completed in 1947.

As of January 1, 1947, the Reading water distribution system comprises 54.34 miles of water mains in sizes 6" to 12", besides other mains of smaller sizes.

1947 Main Water Pipe Extensions

Street	Section	8"	6"	1¼"	Hydrants Total

Main Pipe Maintenance

Two main water pipe breaks occurred during the year, both caused by blasting ledge in sewer construction trenches. On Summer Avenue, between Boyce (Private) Street and Woburn Street, two lengths of 8" main were broken. This main, laid fifty odd years ago, was resting directly on the ledge with no gravel or sand cushion. Main gates at Woburn and Summer and at Prescott and Summer shut off the section of Summer Avenue affected, leaving eight dwelling houses, including one rest home, without town water service. As much ledge in the new sewer trench remained to be blasted, temporary water service was given these eight houses with the co-operation of the Fire Department, by taking water from a hose nozzle on a fire hydrant at Prescott and Pratt Streets, and attaching garden hoses to house sillcocks, back-flowing water into the houses. Repair crews worked diligently days and evenings to remove the ledge, finally laying two new lengths of 8" water mains replacing the broken sections. When the repairs had been completed, the mains were sterilized with HTH, a commercial disinfectant, drained, flushed and turned back in service.

The other main break also occurred during blasting of trench ledge on a sewer extension on High Street, between Mt. Vernon Street and Middlesex Avenue. This break was repaired and the main put back in service the same day the break occurred.

Service Pipe Construction and Maintenance

New water service installation set an all-time record in 1947, exceeding by seven the former high made in 1941. Two of these services were installed to newly-erected commercial garages, and one hundred forty were to newly-erected dwelling houses. The 142 new services totaled 8,009.50 feet, an average length of 54.48 feet and an average cost of individual service to owner of \$36.86. As of January 1, 1948, there are 46.37 miles of service pipe in use in the water distribution system, comprising 2,976 individual service taps, in sizes ranging from 3/4" to 6".

Leaks developed in the average number of service pipes during the year, from various causes. Failures of services installed in the 1800-1900 period are increasing, and are being replaced with new cement-lined service pipe. Cellar shut-off failure also is increasing, and the old shut-offs are being replaced with hand-wheel valves.

Rodding of partially clogged service pipes to increase volume of water delivered to dwelling houses was continued, and in several instances old services were replaced in whole or part.

Meter Maintenance

Meter Maintenance required more attention than normal for various causes, a total of 448 water meters being removed by the Meter Department for testing, repairs, and overhaul. Of these, 331 meters were dismantled, cleaned, repaired and tested before being reinstalled.

Three meters were found beyond repair, junked and replaced with new meters, and 93 new meters were added, for the most part being placed in new dwelling houses. There are now 3,436 water meters in use in the water distribution system.

By the installation on a number of water services of the Meter Master leak detector, several instances of excessive water usage, leaky plumbing fixtures, etc., were discovered and brought to the attention of property owners.

Fire Hydrants

Seven new fire hydrants were installed on water main extensions, in most instances for fire protection in new housing developments, the two exceptions being on South Street and Cross Street, where in the past 1½" mains had prohibited the use of fire hydrants.

Two hydrants were broken by vehicles during the year, with small water loss. The annual inspection of fire hydrants was accomplished, and some minor defects corrected. During the near-disastrous forest fires which raged in Reading in October, 1947, fire departments from as far away as Nashua, New Hampshire and Boston, Mass. assisted the Reading Fire Department in combatting them, and all fire hydrants used were found in good working condition.

Driven Well System

One new suction main, including nine driven wells, was installed during the early fall. This suction main is located in an excellent water-bearing gravel strata paralleling Strout Avenue, in a section which has never been flooded by the overflow from the Ipswich River. Tests made on each of the nine driven wells proved the water to be of excellent quantity, low in iron content and color. Provisions were made for a new suction main installation in 1948 in this same area.

All wells in the collection system were inspected during the year, air-tested for possible leaks, spudded and cleaned, and any wells or connections to suction mains found to have defects repaired, new sweep-tees, nipples and well-leads being installed in several instances. Certain wells found to deliver water containing excessive iron, or water of high color, were shut off from the collection system.

Filtration Plant

The filtration plant operated efficiently throughout the year, a total of 268,036,800 gallons of raw water direct from the tubular wells, averaging 734,347 gallons per day having been aerated, filtered and delivered to the clear water basin. Tables included in this report made in the laboratory of Weston and Sampson, Consulting Engineers, show the results obtained by aeration and filtration.

Sand Filter No. 1 was raked twice and scraped three times: Sand Filter No. 2, raked twice and scraped three times during the year. The new 12" sand blanket installed in each filter in 1946 produced satisfactory results, in the removal of iron hydrates. Other maintenance work on the Filter Plant was confined to cleaning and brushing the vertical aerator tubes, and reaming the tube caps.

Standpipes

No major repair or maintenance work was required on either standpipe during 1947.

PUMPING STATIONS

Hundred Acre Pumping Station

Hundred Acre Pumping Station operated daily through the year, averaging 14 hours of operation daily, and delivered 268,036,800 gallons of raw water direct from the tubular wells to the Filtration Plant and filtered water to the distribution mains, averaging 734,347 gallons per day, at a cost of pumping figured on total pumping station expenses of \$33.56 per million gallons pumped. The greatest amount pumped in any one day was on Monday, July 14, 1947, with a total pumpage of 1,250,000 gallons: in any one week, from July 12 to 18 inclusive, with a total pumpage of 7,176,300 gallons. The 75 H.P. high lift pump was in operation for a total of 5118.25 hours during the year, and the 125 H.P. high lift pump in operation for a total of 3 hours.

Six interruptions of electric power supply occurred during the year, all due to electric and wind storms. The longest interruption occurred on Wednesday, July 16, when lightning scored a direct hit on a primary wire at the station, causing a four hour shut-down. The Municipal Light Department re-wired from the fuse blocks to the transformers to repair the damage.

On Thursday, October 23, during the forest fire period, caused by extreme drouth, two fires became out of control in Reading; one off Main Street and one off West Street, necessitating calling outside Fire

Departments from as far away as Boston and Nashua, New Hampshire. During this period, the rate of pumpage was increased to offset the heavy draft of the many fire pumping engines that were in service extinguishing the fires.

Daily readings of the test well at Hundred Acres well field proved the ground water supply to be holding at normal even during the drouth period, when many other communities were threatened with shortages of Municipal Water Supply.

Mill Street Pumping Station

Mill Street Pumping Station was kept in readiness for possible emergency use during the year, but was not actively operated. The vote of the town authorizing the sale of machinery and equipment at this station at the March, 1946, Town Meeting has not yet been carried out, due to lack of suitable bids for same. The building has, however been used extensively for storage purposes to relieve congestion at the Municipal Garage, and to facilitate use of a large double door in the South wall of the boiler room, a gravel driveway was constructed from the present driveway.

HIGHWAY DEPARTMENT

Gentlemen:

The following is the yearly report of the Highway Department:

Appropriations voted in March Town Meeting:

1. Highway Maintenance and Construction		
Salaries	\$	32,500.00
Expenses		29,500.00
2. Removal of Snow and Ice		
Salaries		11,000.00
Expenses		9,000.00
3. Maintenance of Storm Drains		
Salaries		3,000.00
Expenses		2,600.00
4. Sidewalk Construction and Maintenance		
Salaries		7,400.00
Expenses		2,400.00

5.	Development of Storm Water Drains		
	Salaries		5,800.00
	Expenses		3,800.00
6.	Care of Dumps		
	Salaries		2,400.00
	Expenses		200.00
7.	Construction of West Hill Circle		
	Bal. Fwd. from 1946		1,084.06
8.	Construction of Wescroft Road		
	Bal. Fwd. from 1946		2,350.90
9.	Construction of Springvale Road		
	Bal. Fwd. from 1946		412.24
10.	Construction of Harvard Street		
	Bal. Fwd. from 1946		351.20
11.	Construction of Mineral Street Bridge		
	Bal. Fwd. from 1946		250.00
12.	Construction of George and Curtis Streets		
	Salaries		4,000.00
	Expenses		5,535.00
13.	Development Committee		
	Bal. Fwd. from 1946		257.15
14.	Post War Planning		
	Bal. Fwd. from 1946		1,332.62
15.	Chapter 90 Maintenance		
	Transferred from Highway Dept.	\$ 500.00	
	Transferred from E and D	1,000.00	
			<hr/>
			1,500.00
16.	Road Machinery Fund		
	Transferred from Road Mach. Acct. ...	20,000.00	
	Bal. Fwd. from 1946	1,281.49	
	Refund Over Payment	9.50	
	Transferred from Road Mach. Acct.		
	Oct. 27, 1947	2,000.00	
			<hr/>
			23,290.99
17.	Chapter 90 Construction, Lowell St.		
	Appropriation	\$ 500.00	
	Transferred from E. and D. Acct.	15,000.00	
	Transferred from Chap. 90 Charles St. ..	4,500.00	
	Bal. Fwd. from 1946	3,005.31	
			<hr/>
			23,005.31

18. Voted at Special Town Meeting Oct. 27, 1947, Snow and Ice	
Salaries	1,200.00
Expenses	300.00
Voted at Special Town Meeting Dec. 22, 1947, Snow and Ice	
Salaries	2,200.00
Expenses	1,800.00
19. Municipal Garage	
Bal. Fwd. from 1946	24,730.40
20. Special Drainage Installation	
Bal. Fwd. from 1946	1,050.00
21. Federal Works Agency Acct.	300.00
Grand Total	<u>\$205,350.44</u>

Highway Department

Again in 1947, as in the past few years, the Department was handicapped by its inability to hire qualified workmen. Such labor as was available was of poor quality, unstable in nature and insufficient in number. The main trouble is, of course, the inability of the Department to pay salaries comparative to those paid by private industry. A salary schedule should be established which will place the Department in a competitive position in the labor market. This would actually be an economical procedure as it would then be possible for the Department to maintain a higher degree of efficiency per man by hiring better qualified personnel and by reducing the turnover of employees. Every effort was made to make up the deficiency in labor by mechanical means.

Again, as in previous years, many more requests for particular services were received than could be furnished. This is particularly true in relation to storm drains and granolithic sidewalks. Many requests are now on file for these services. The estimated cost is much in excess of yearly appropriations. This condition will worsen as the Town develops. Larger yearly appropriations are required. Otherwise the situation will reach the point where large Bond Issues will be necessary.

A somewhat detailed account of the work accomplished in the Highway Divisions follows herewith:

Snow and Ice

Twenty snow storms were recorded in Reading during 1947, eight of which were under 1" depth, three were under 2" depth, and seven of which were from 4" to 20" in depth and required plowing. The following table includes only the seven storms requiring highway snow-plowing:

Recorded Snowfall—1947

Date	Snowfall (inches)	Temp.	Wind Direction	Force	Remarks
Jan. 1	8	18	N.W.	Light	Light and Fine
Jan. 5	6	22	N.E.	Light	Light and Fine
Feb. 20-21	12	20	N.N.E.	Moderate	Granular
Dec. 5-7	5½	28	North	Light	Medium Heavy
Dec. 10	4	26	N.W.	Light	Medium Light
Dec. 23-24	18	22	N.E.	Moderate	Light and Fine
Dec. 26-27-28	20	20	N.E.	Moderate	Medium Light

Total 73½ inches

During the early months of 1947 (January and February) only three plowable snow storms occurred, and no difficulty was experienced in highway snow-plowing. Light accumulations of snow were interspersed with the heavy plowable snowfall and necessitated much highway sanding during the months of January, February and March. The month of December, however, was a far different proposition. Snow started early in the month, and coupled with continued cold weather, settled down for an "Old Fashioned Winter" which to date of writing this report has exceeded in total inches of snowfall, all existing records. For the most part the snow storms in December were easily handled, but with the continued accumulation of snow in the early part of 1948, and continuous cold weather, the task becomes more difficult and involved.

Departmental snow-fighting equipment was augmented by several hired privately owned units: ie: Three five-ton trucks, one plow-mounted truck—(tractor-trailer type), two 1½ ton trucks, and three tractors.

The snow loader continued to be of utmost value in snow removal work, and has suffered no major mechanical breakdowns. Such cannot be said regarding trucks and crawler-type tractors. For the most part, departmental trucks and tractors are old and obsolete, and heavy snow-plowing work magnifies their defects and causes many breakdowns. When this occurs, other units must be taken from their plow-routes to cover-in on the route of the failed unit, upsetting the plowing schedule and resulting in delayed plow service. A planned program of equipment replacement should be instituted at once and strictly adhered to.

General Highway Maintenance

Road maintenance programs were established and executed with efforts to make the available funds cover the most street surface in an effective manner. Although the spring thaws caused some damage to streets, it was less than in previous years although serious on many streets where inadequate drainage exists. The amount of available

funds did not permit as much street surfacing to be done as was desired and necessary.

Much road patching was necessary. This was accomplished mostly with commercial patching. Very little patch was mixed by the Department due to a continuous shortage of labor.

The annual spring sweeping and cleaning of streets and gutters was accomplished as usual. A heavy deposit of sand from winter operations was encountered. To expedite this work, an Elgin street sweeper was hired as was a Case Tractor with front end bucket. The Department Roto-Sweeper was also used. These three units permitted the work to be done with a minimum of hand labor.

Brush was cut from roadsides during the early spring and late fall months.

Many street signs were made, lettered and hung by Department employees. This type of work was done mainly during inclement weather so that it would not interfere with other work which must necessarily be done during good weather.

Many other tasks were accomplished by this division such as, installing granite curbs, sharpening and repairing tools, repairing equipment, surveys for current and future operations, crushing gravel, repairing guard rails, etc.

Chapter 90 Maintenance

Chapter 90 Maintenance work, made possible by funds allotted by the State, County and Town, was accomplished on certain well travelled roads. The work consisted of surface treatments of a varied nature, patching holes, replacing spalled stone pavement, repairing guard rails, etc.

Chapter 90 Construction

Chapter 90 Construction work was accomplished only on Lowell Street between Winthrop Avenue and Highland Street. Again the funds for the work are allotted by the State, County and Town. Part of the 1947 Contract work still remains to be done. All work of an underground nature has been completed but the surfacing still remains to be done. It will be completed in 1948.

Chapter 83 Construction (Street Betterments)

Some work was accomplished under this heading. In the main, however, it was necessary, due to the lack of laborers, to postpone much of the work to 1948. One street, West Hill Circle, was completed. Accepted in 1941, this street was a war-time hold-over due to scarcity of materials and labor.

Granolithic Sidewalk Construction

Many individual granolithic sidewalks were installed in 1947, each being installed at the request of the abutting property owner under the Betterment Act with the owner and the Town each paying one half of the cost. 2,179.31 feet of Granolithic Sidewalk was installed in 1947.

Sidewalk Maintenance

Much work was done maintaining both gravel and granolithic sidewalks. Many new gravel sidewalks were built in front of newly constructed houses.

Granite Curbing

1,257.4 lineal feet of granite curbing was installed at various locations upon application from abutting property owners under the provisions of the Betterment Act. Corner radius curbing was installed in several locations where conditions warranted.

Storm Water Drains

A total of 2,062.25 lineal feet of storm water drainage was installed plus the necessary catch basins and manholes. All were installed to relieve conditions which had been causing damage, irritation and inconvenience to many abutters as well as to improve the travelling conditions on many roads where the accumulations of water in the summer and ice in the winter had created dangerous driving conditions.

Maintenance of Storm Water Drains

Many existing drains were rodded and flushed. Where necessary, plugged drains were excavated and cleaned. In some instances, sections of drains were relaid. Many open ditches were cleaned, widened and deepened.

Catch basins and manholes were cleaned in the fall months by means of a rented Catch Basin Cleaning Machine plus one departmental truck.

Heavy rainfall occurred during the year on two or three occasions causing many ditches and drains to overflow due to inadequate carrying capacity.

The Quannapowitt Drain System, although not yet completed, continued to function well.

Dumps

The public dump on John Street was maintained during the year, with a caretaker on duty during scheduled hours. The area was also leveled regularly with a bulldozer. As the practice of using various roadside dumps throughout the Town subsides, the amount of rubbish brought to the dump increases. The great majority of the people using the dump co-operate willingly with the caretaker. A few, however, refuse to co-operate. These few make the job of keeping the dump in fair condition much harder and more expensive than is necessary.

PARK DEPARTMENT

Expenses		27.14

PARK DEPARTMENT

Parks and playgrounds were popular throughout the year. Many leagues were organized. These included baseball, softball, hockey and others. All parks were in constant use but the Washington Street Park ballfield received particularly heavy use.

As usual the Park Appropriation was only sufficient to cover the maintenance of the Parks. Consequently, no major improvements were possible and no new equipment was purchased.

Organized recreation programs were provided in all playgrounds during the Summer months by the Recreation Committee. This Department cooperated with the Recreation Committee to the fullest extent possible.

The report of the Recreation Committee is included in the annual town report, and should be studied by Townspeople for a more detailed account of the excellent results obtained by this program.

Additional areas were filled in Birch Meadow with excess material from various construction jobs. The area now filled has reached the point where it may, for a relatively small expenditure, be made available for recreational purposes. Funds should be made available for this purpose.

The area leased to the Town by Mr. Allan Sturges for a Winter Sports Center was again very popular. The area abutting Walnut Street has been leased to the Town, at no cost, for several years. The Town certainly owes Mr. Sturges a vote of thanks for his public spirited action.

SEWER DEPARTMENT

To the Board of Public Works:
Gentlemen:

The following is the yearly report of the Sewer Department:

Construction and Maintenance Account

Appropriation		
Salaries		\$ 9,000.00

Balance Unexpended, Salaries		\$ 7.50
Balance Unexpended, Expenses		\$ 7.95

MAIN TRUNK SEWER EXTENSION

Main Trunk sewer extensions were installed in five streets, totalling 1,455.00 feet in length and making possible twenty-eight house connections. In December, the Town Meeting authorized a bond issue of \$65,000.00 for sewer extensions. This will enable the Department to furnish sewers in many locations where cesspool troubles have been prevalent for many years.

The following table illustrates main trunk sewer extensions in 1947, by street:

MAIN TRUNK SEWER EXTENSIONS—1947

Location	Size and Length of Pipe			Man		Total Len.		
	8"V.C.	6"V.C.	6"C.I.	Tees	Holes	Y's	Pipe Only	Possible Conn.

John St.		82.00				2	82.00	2
Lowell St.		101.16				2	101.16	2
Summer Ave.	54.50		176.00	2	1	1	230.50	3
Totals	1095.84	183.16	176.00	2	6	26	1455.00	28

Sewer Maintenance

Many trunk sewers were cleaned and flushed to prevent stoppages. Manholes were maintained and covers were packed to prevent noisy conditions. No stoppages occurred during 1947 in main trunk sewers.

Sewer House Connections

Fifty-one new sewer connections were completed in 1947, having a total length of 3,149.80 feet, an average length of 61.76 feet and at an average cost to the individual property owner of \$69.55 per connection. Five of the sewer connections were installed on a cash deposit basis. and forty-six under the provisions of the Sewer Betterment Act which requires no initial deposit and permits payments to be extended over a period of years. Thirty-nine of the connections were made to existing dwellings on sewerred streets, nine to newly erected dwelling houses one to a newly erected garage, one to an existing store, and one to an existing manufacturing establishment.

As of January 1, 1948, there are in the area serviced by the Reading Sewer System, 1,048 possible sewer house connections on existing sewerred streets, of which number 841 or 80% are now connected. A majority of the remaining 207 possible sewer house connections will be directly affected by the provisions of Chapter 280, General Laws, Acts of 1937, which became effective July 15, 1938, requiring property owners to connect their estates with the common sewer where sewers were available. The ten-year period of grace cited in said Chapter 280 expires on July 15, 1948.

Sewer House Connection Maintenance

Temporary stoppages occurred in the usual number of cases during the year. Some were due to natural causes such as tree roots growing through joints. Others were caused by the introduction of foreign objects. such as, rags, milk bottles, toys, etc. In the latter case, the owners pay for the cost of the service.

RECOMMENDATIONS

General

The inability of the Public Works Department to attract and keep competent employees poses a serious problem. If services are to be maintained economically and efficiently, a system will have to be devised so that the Department may be in a competitive position in the Labor Market. Salary schedules will have to be set up so that the Department will be in a position to attract competent employees. It is false economy to do otherwise. Incompetent employees, large turnover and the lack of skilled, experienced basic group of employees tends towards lost time, poor use of materials and inefficient use of equipment.

A schedule should be set up and rigorously followed for the replacement of old equipment and the purchase of new types of equipment. It is self-evident that this is a good policy. Everyone knows that every piece of equipment eventually reaches the point where it is cheaper to replace it than it is to maintain it. The Department had such a program just prior to World War II. It was followed for three years and the good results were apparent to all. The program was not followed during nor since the War. That this was false economy is now apparent to all. A new program has been prepared and submitted. It is hoped that it will be rigorously adhered to.

Highway

Continued construction of new residences will necessarily result in added work for this Division. New streets will have to be built. Extended maintenance will be required. Many requests will be received for various services. Much of this has already occurred.

It is consequently necessary to enlarge this Department if the requested services are to be given. Funds should be provided for the enlargement of this Division.

Storm Water Drains

A serious problem faces the Town here. The Department has on file many requests for the installation of Drainage facilities. The normal annual appropriation is woefully insufficient. This problem will worsen in direct proportion to the increase in residential construction. Unless steps are taken immediately to ease this situation, the time will come, in the near future, when a large bond issue will be necessary. It would seem much more sensible to face the facts now and provide larger yearly appropriations for this purpose. *

Parks

For many years funds have not been available for expansion of the play areas and for the installation of facilities. Consequently, the available areas and facilities are being over-taxed. As the Town continues to develop, this condition will become worse.

The condition is particularly bad in relation to baseball. With only one ballfield available, it is in continuous use day and evening from May to September. It is practically impossible to keep it in good shape under these conditions. It is rapidly deteriorating. An area has been filled in Birch Meadow which, for a comparatively small amount could be made into a ballfield. It is strongly urged that funds be provided for this purpose. Funds should also be provided for other necessary improvements.

Sewers

With the funds from the recently approved bond issue, the Department will be able to install sewers in locations covered by the applications on file as of December 1, 1947. Since then, other applications have been received. This condition will continue to exist. Normal yearly appropriations should be sufficient to allow the Department to install sewers in all locations covered by applications on file as of January 1 in each year and thus eliminate costly bond issues.

Water

A large increase in the number of residences constructed seriously increased the work in this division. This will continue for some time. It will naturally result in a complete expansion of all parts of this division; supply, distribution and maintenance. It is doubtful if the normal income of the Division will be sufficient to finance this expansion on a pay-as-you-go policy. A small bond issue was necessary in 1947. It will probably be necessary to raise other bond issues to cover the major part of the expansion.

Conclusion

Attention is called to the report of the Capital Budgeting Expenditures Committee. All of the above recommendations are contained therein. A careful examination of this report will show that it is possible to provide the necessary funds without serious effect on the tax rate. It sets up a pay-as-you-go policy for most of these items under which much could be accomplished over a period of years without recourse to expensive, ill advised and poorly planned bond issues. It, in a word, is a planned program which, over a period of years, provides an answer to the many problems of this and other Town Departments.

REPORT OF THE EXECUTIVE OFFICE OF THE BOARD OF PUBLIC WORKS

To the Board of Public Works:

Gentlemen:

The following is the yearly report of the executive office:

Appropriation:

Salaries	\$ 6,050.00
Expenses	875.00

Expended:

Salaries	\$ 5,937.90
Expenses	846.43

Balance Unexpended:

Salaries	\$ 112.10
Expenses	28.57

The following table shows the expenditures made this past year in the major departments, the payroll of each, and the entire expenditures of the Department of Public Works:

Note: Highway includes all other departmental accounts not specifically mentioned below, such as Chapter 90, Drainage, Sidewalks, Snow and Ice, etc.

	B.P.W.	Water	Highway	Sewer	Park	Totals
Payroll	\$ 5,937.90	\$37,490.69	\$ 68,098.84	\$13,398.93	\$ 5,945.83	\$130,872.19
Bills	846.43	41,818.28	78,919.94	12,349.65	2,472.86	136,407.16
	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>
	\$ 6,784.33	\$79,308.97	\$147,018.78	\$25,748.58	\$ 8,418.69	\$267,279.35

In closing this report, the Superintendent wishes to express his appreciation to the members of the Board for their many helpful suggestions and kindness extended to him during the year, and to assure all those in any way associated with him in carrying on the work of the Department of his gratitude for their interest and co-operation, and to acknowledge the assistance, co-operation and helpful suggestions which he has received from the other department heads of the Town.

PHILIP WELCH,

Superintendent

REPORT OF THE RECREATION COMMITTEE

The Recreation Committee endeavored to carry out a program of supervised play to reach all the children in Reading who were not fortunate enough to go away to summer resorts or camps during the Summer. Mr. John B. Pacino as director and a competent corps of assistants were appointed to supervise the play.

Two instructors were assigned to each of the following playgrounds: Washington Street, Birch Meadow, Memorial Park, Junior High area and Chestnut Hill area using Leach Park and the Chestnut Hill School and yard. One attendant was assigned to each wading pool and one additional instructor for arts and crafts worked on a schedule instructing on the various areas.

The program operated for a period of eight weeks and the playgrounds were open from 9:00 A. M. to 8:30 P. M. Monday through Friday and from 9:00 A. M. to 12:00 Noon on Saturdays. The success of the program is evidenced by the attendance as reported by the instructors, totaling on all playgrounds an estimated daily attendance of 1050 different children. Birch Meadow and Washington Street attract the greatest number, 350 and 250, respectively.

The program included all types of organized games for both boys and girls but baseball, as in the past, engages the greatest number. Two leagues were formed, one for the seniors and one for juniors, and games were played nearly every pleasant day.

Although the program is for the children whenever sufficient interest has been shown and leadership has been apparent among the older boys and grown ups for a particular activity, the playground instructors have assisted by helping with schedules and providing the area required. A tennis tournament and series of matches with out of town groups were arranged during the past season as well as the operation of a softball league during the evening.

The value of a recreation program such as is carried out in Reading cannot be estimated in dollars. If the principal aim and objectives of the program to provide wholesome recreational opportunities for the youngsters, to provide guidance in developing proper attitudes and habits, and to teach the proper use of leisure time, are in a small way successful, then untold hours in the lives of Reading children in later life will be more pleasant and more profitable.

The sum of \$4500.00 was made available to the Committee. Approximately \$3600.00 of this was used for salaries, the balance for equipment, supplies, operating expenses and miscellaneous small items.

The Committee wishes to acknowledge and thank the School Committee for the use of the Junior High and Chestnut Hill School grounds; also the Superintendent of Schools, Dr. Grover, for his assistance and many courtesies.

The Board of Public Works and its Superintendent, Mr. Welch, co-operated to the fullest extent in keeping the parks in good condition and providing various pieces of equipment needed during the Summer. We express very strongly our appreciation of this, as the parks and recreation program are very closely allied and without this co-operation our program could not be successful.

A detailed report of the Director is available to any who care to have one. Your request should be made to any member of the Committee or to the Office of the Board of Public Works.

Recreation Committee

HAROLD W. PUTNAM

NEWELL MORTON

CARL PINKHAM

REPORT OF THE CONTRIBUTORY RETIREMENT BOARD

To the Honorable Board of Selectmen:

The total membership of the Contributory Retirement System on December 31, 1946 was 164. During the year 1947, 23 new members were admitted to the system, 12 withdrew, 2 transferred to inactive membership, and 1 member deceased, making a total of 172 active members.

At a special town meeting held on October 27, 1947 it was voted to accept Chapter 615 of the Acts of 1947, which provides an increase not exceeding 20% of certain pensions for a temporary period of one year from the effective date, voted by the Board to be November 1, 1947.

The following is the financial statement for the year ending December 31, 1947.

Board of Assessors

REPORT OF BUILDING INSPECTOR

To the Honorable Board of Selectmen:

Gentlemen:

I hereby submit the report of the Inspector of Building for the year 1947.

There has been considerable activity in the past year as you will see by this report, and I believe you will agree that a full time inspector be appointed to handle the volume of building that is constantly increasing and needs one to devote his entire time to handle the inspection that is really required and as it should be.

Reading, as I have reported previously is one of very few towns that has a part time inspector and it would be for the Town's interest if a full time Inspector were appointed. It has taken a lot of my time that I should have been devoting to my own business, but I felt as long as I was the Inspector I was obligated to give it as much time as I could really afford, and on several occasions it has been much more.

Here are the results of permits as issued, with the estimated cost of same as stated by the applicants and as usual in my estimation, they are at least 20% less than what they should be, but as you know the Inspector has no authority to change the estimated cost as submitted by the applicant.

131 New Dwellings	906,800.00
28 Alterations and additions to all types of building	83,040.00
21 Private garages	16,000.00
1 Telephone Exchange Addition	40,000.00
1 Small Office Building	4,000.00
1 Filling Station	10,000.00
1 Public Garage and Showroom	16,000.00
1 Store Front	2,500.00
5 Hen Houses	5,950.00
1 Green House	2,500.00
1 Barbecue Enclosure	700.00
1 Play House	500.00
1 Tool House	150.00
1 Ice Cream Stand	600.00
Total estimated cost of all buildings	\$1,088,740.00

The sum of \$806.00 was received by me in fees for the above building permits, which I have turned over to the Town Treasurer.

As usual I have had many complaints for violation of the Zoning By-laws which have been thoroughly investigated and brought to a satisfactory conclusion in most cases.

Respectfully submitted

GEORGE H. SIDEBOTTOM

Building Inspector

Respectfully submitted

E. M. HALLIGAN, M. D.

C. R. BAISLEY, M. D.

C. F. ATKINSON

REPORT OF DOG OFFICER

To the Honorable Board of Selectmen

Gentlemen:

I herewith submit my report as dog officer to December 31, 1947.

I have canvassed the town to see that all dogs were licensed. Unlicensed and strayed dogs have been found and disposed of as follows:

164 have been destroyed

52 have been returned to owners

55 hens destroyed by dogs

58 dog bites, 4 owners unknown

27 dogs killed by autos

604 complaints have been investigated

1 order to destroyed served

2657 miles have been covered

At this time I wish to thank the Police Department and the Inspector of Animals for their help.

Respectfully submitted

CHARLES H. MELENDY

Dog Officer
